Foreign Agents are Assisting in Distributing Soviet Arms  
to Communist Shock Troops!

We just received from one of our local observers the following information which confirms our previous report in which we told you that most, if not all of the arms which the Arbenz regime tried to sneak secretly into our country from the Swedish freighter ALFHEN, are meant for the communist shock troops and the hand picked police of comrade Cruz Wer, not for the legitimate armed forces of this country. Here is the information:

On Friday, 30 April, two Cominform agents, using the names of Anton Refregier and Asa Zatz, arrived in Guatemala City. Alfonso Orantes, member of the Central Committee of the PRG and one of the directors of the communist "Casa de la Cultura Guatemalteca" - who has been known to us for quite some time as belonging to the inner circle of the secret sector of the Communist Party - welcomed them and arranged for them to live at the Boarding House Gueroult.

The two carried U.S. passports which are as phony as their names: but our police, so clever in discovering anti-communist "crimes", naturally never dared to doubt the documents of Moscow's spies, vouched for by an important local Stalinist like Orantes. Refregier registered as a painter and Zatz as a writer, but we happen to know that his professional writings so far have been limited to the espionage reports which he is writing for his superiors in Prague and in Moscow.

Soon after their arrival, the two agents were contacted by Jaime Diaz Rozzotto, the communist leader who was made Secretary General of the "Partido Renovacion Nacional" and keeps also a watchful eye over President Arbenz himself, in his second role as Secretary General of the Secretario de la

Presidencia. After having verified Rozzotto's identity, the alleged Refregier and Zatz informed him that they had come to supervise the unloading and the distribution of the arms shipments from Poland and elsewhere and that they would then instruct the leaders of the communist shock troops, as well as certain hand-picked police officers, in the most effective use of these weapons.

When the ALPHEM with her cargo of Soviet arms steamed into the harbor of Puerto Barrios on 15 May, Refregier and Zatz were among the selected few who knew in advance of this carefully kept secret and who had therefore traveled in time to Puerto Barrios to control discreetly the unloading and trans-shipment of the valuable freight.

We expect that our story, as we have just told it to you, will put an end to the nefarious work of these two foreign agents (who may have to fear punishment from their Soviet paymasters for having been a wee bit careless, talking too much around the boarding house, mentioning that the CGTG was going to pay their bill, receiving mail directly - not by detours as every well trained Soviet spy should, and so on).

We must apologize at the same time to our many observers and reporters throughout the country that we cannot always publish all their interesting information they send us so faithfully and swiftly: some times, we withhold such reports from the air in order not to show the traitors exactly how fully we are aware of their plots, in other cases, we simply cannot broadcast them for lack of time. But we assure you all that every report is carefully studied by the respective staffs of our Liberation Movement and acted upon,

as indicated. Nevertheless, we ask all our listeners once more to keep a watchful eye on the activities of all open and disguised communists, in order to expose their treason even more completely and to hasten the hour of liberation!
