S

APPROVED FOR RELEASE
DATE: JUL 2004

To: 7404

26 Feb 45

From: SD

D.183

1. 4383 states that in JUTLAND identity cards carried by our boys should be "issued" from police stations in JUTLAND rather than elsewhere, in order that undue curiosity on the part of enemy controls is not aroused.
2. Whether this is in fact the case, or not, we are very short of samples of identity cards issued by JUTLAND police stations. Will you procure us some more as soon as you can.
3. 4383 has also asked for a typewriter. Can you get one locally and CREEP it to him?

26 Feb 45

From: SD

D.184

Your D.233.

1. We have noted your remarks on the possibilities of CREEPING to 7466. While it may not be possible to establish a regular service, we want you to use every opportunity of sending 7466 such supplies of CREEP as you can manage.
2. Apart from any specific instructions from here, P.E. ancillaries are quite suitable. Experience has shown that ancillaries should form a higher proportion of the CREEP than is actually necessary for active operations. This is required as instructors often expend ancillaries in training groups in sabotage operations.
3. We will investigate the question of supplying 7466 by 7496 and inform you of our decision in due course.
