MOST IMMEDIATE

Your 407.

- A. This is most interesting as we have been looking for method of Creeping material to 7466 who is based on FYN.
- B. It may be preferable to maintain this new route for supplying 7466 only and not link it up with 7496.
- C. It would be necessary for 7466 to W/T H.Q. giving them names of contacts to whom material could be delivered.
