To: 7408 (through 7404) D.68
From: SD 24th January, 1945

1. We have just received 7404's report on CREEP operations during the year ending 31st December, 1944. I want you and your local assistants to know that this is a most important and valuable contribution to our campaign. We cannot possibly rely on air operations to fulfil all our requirements - the physical difficulties of weather and reception and, in many cases, the fragile nature or small size of the stores in question have made it imperative for us to establish complementary methods of infiltration.
2. I am particularly pleased with the results which have been obtained through the routes which you control. The efficiency with which the Service has been organised and maintained reflects great credit upon yourself and your assistants. I will be grateful if you would pass on my personal congratulations to those concerned.
3. We shall soon be making our landfall (to use a nautical metaphor!) and the last stages are going to call for the greatest effort from everyone. I am confident that your ability and ingenuity will surmount whatever new difficulties may arise and that 1945 will show an even more satisfactory record than 1944!

Your D.80, of the 17th January, 1945:

SCALA 11

1. With reference to our D.174, of the 20th March, 1944, I think that as we are now receiving from you a weekly telegram showing the position of CREEP stocks, and also a monthly report on acts of Sabotage, Arrests, etc., we might - in view of the very high pressure of work in your office - dispense with the monthly contribution to the Progress Report.
2. Your weekly telegram concerning CREEP stocks has been of great assistance to us, as it is of the utmost importance that we should know just what is lying in Sweden and what has actually been delivered to the Field.
3. In future approximately 50 percent of the P.E. will be sent to Zealand, but you will always receive the usual notification as to the destination of the stores.
