File

A "C" source reports:

This morning, a German was overheard in Swit=erland ordering a Swiss to send a telegram to-day to U.S.A. containing following :

"BANKVEREIN [illegible]

"60,000 watches BANKVEREIN secure permits UHRENGENOSSENSCHAFT ZUERICH".

Several phrases are missing also the wording was somewhat different but from conversation was clear telegram was a code message.

21. September. 1944.

Uncle George.
