Dear Colonel Williams:

Enjoyed seeing you Sunday and hope we can get together on these experiments very shortly.

Hope you won't forget to see private Sandala, Serial No. 32,378,678.

Also, here's another man whom we had all lined up for a job at our place and actually had him resign from his civilian position, I understand, and didn't take him on only because his investigation security had not come in. His security clearance has since come in but in the meantime he was drafted. He is Edward Bartels, Private, Serial No. 32269244, Company G, 571 Engineers Corp, Camp Edwards, Mass.

Please don't forget to let me know if you can square up for officer allotments to be set up.

With kindest personal regards, I am

Sincerely

*Joan.*
