CENTRAL INTELLIGENCE AGENCY

20 December 1956

Dear Allan:

The office concerned with Bulgarian affairs has asked me to convey to you its appreciation for the monthly summary, "Bulgaria: Notes on Internal and External Developments." I believe that this report was given formal distribution about a year ago, partly as a result of our interest expressed at the time.

The monthly summary is a useful aid to current analysis of Bulgarian activities and is a valuable document for both briefing and reference purposes. We look forward to the continuation of this series as another research effort in support of our program.
