1. Reference is made to your memorandum dated 13 July 1957, subject as above. We would appreciate receiving reproductions of the originals of the seven pieces of personal correspondence found in frames of soft film among "Mark's" effects at the time of his arrest in order to analyze the original language and handwriting for indications of authorship or hidden content.

2. Regarding the message torn from an address-date book mentioned on page 23 of your memorandum, we would be interested in learning whether you have any indications whether it was written by Reino HAYHANEN or if someone else is involved. Since the author was planning to sail on the "Queen Elizabeth" for London on 31 January 1957 and claimed to be under surveillance, there is some possibility the author was a Soviet official.

3. Finally, we would appreciate being advised of the results of checks of INS, airline or any other records which may have established the name under which "Mark" traveled from New York to Paris and Vienna in early June 1955. We note that "Mark" checked into the Embassy Hotel on 28 January 1956 which may be the approximate date of his return to the United States from his Moscow trip.
