25 July 1960

Post-Mortem on SNIE 33-60

Short-Term Prospects for Turkey

dated 19 July 1960

I. Findings

The main problems encountered in the preparation of SNIE 33-60 concerned the views, relationships, and power positions of the members of the CNU, and the attitudes of other military leaders toward the CNU. In addition, little is known about popular attitudes toward the military regime, particularly in areas where Menderes' Democrat Party was strong.

II. Action

The USIB agencies are requested to take such action as is feasible to fill these gaps in intelligence coverage.
