AIF

SECRET

Major Duncan Lee

October 7, 1944.

Eric Staigt

(b)(6)

In accordance with your request, I hand you herewith copies of two FEA memoranda, the first being the original directive on the German end of the Page project under date of May 12th and the second a memorandum from [redacted] to [redacted] of FEA dated July 24th. The latter explains in some detail the over-all work which FEA did on the project.

As explained in the course of our conversation yesterday, this work, which carried a secret classification, was undertaken for the Foreign Economic Administration prior to July 1, 1944 and while the Survey was still a joint project of OSS and FEA.
