

Intelligence Checklist

USSR: *Within the past two days, the Soviets have conducted flight tests of three of their new MIRVed missiles.*

Two SS-X-20 intermediate range ballistic missiles were launched from an operational ICBM complex

[redacted]
[redacted] It probably will be ready for the field by midyear.

This mobile missile carries three reentry vehicles and has flown as far as 2,200 miles. It will be fielded opposite China and Western Europe, eventually replacing the older SS-4s and SS-5s.
