The navy rebellion has been recessed while truce talks get underway. The navy insists the cease-fire does not mean "unconditional" surrender. It does not have the upper hand, but retains the threat to bombard Buenos Aires which hastened Peron's departure in 1955.

NOTES

A. Brazil A Brazilian paper close to Goulart's administration reports that Goulart is thinking of authorizing a central organization to consolidate and to direct all of Brazil's labor organizations. Communists now control three of the five major labor confederations in Brazil, and would be likely to dominate any consolidated agency. Communists would also be in a stronger position to influence the organization of rural labor, now in its initial stages.

50X1

B. Venezuela Another series of terrorist attacks is planned for early this month in Venezuela by the Communist controlled Armed Forces of National Liberation.

D. Berlin Plans are for the private British plane to be flown back out of Berlin tomorrow. The British, having had their protest rejected by the Soviets in the Berlin Air Safety Center, plan to take the matter up at a government level in Moscow or London in order to assure its safe removal.

E. Syria-UAR The situation has simmered down a bit in Syria.

The regime now may be able to stick to its guns when "unity" talks get underway again on Saturday in Cairo.

F. USSR The shakeup in the Soviet high command has affected Admiral N. I. Vinogradov, one of Zakharov's deputies, as well. Vinogradov has been dropped to a relatively minor job as chief of naval training institutions.

H. South Korea The civilian opposition has proposed an agreement under which Pak's referendum scheme would be withdrawn and civilian rule would be returned to South Korea no later than the end of December this year. Pak is engaged in smoking out US reaction to various modifications of his original plan. While Pak and the civilians are still far apart, the prospects for a paper agreement are improving.
