

DECLASSIFIED AND RELEASED BY  
CENTRAL INTELLIGENCE AGENCY  
SOURCES/METHODS/EXEMPTION 3B2B  
NAZI WAR CRIMES DISCLOSURE ACT  
DATE 2006

SODB-48096

TO: Director, Federal Bureau of Investigation JAN 1952  
Attention: Mr. C. W. Gates

FROM: Lyman D. Kirkpatrick,  
Assistant Director

SUBJECT: Ivan GAVRIK VILI, et al  
ESPIONAGE

RECORDED  
MICROFILMED

JUL 24 1951

DOCUMENT MICROFILM SERVICE

1. In accordance with the requests made in your memorandum of 7 November 1951, and in your subsequent memoranda of 26 November 1951, 4 January 1952, and 16 January 1952, the following information and comments are submitted by this Agency for assistance in evaluating your informant. Inasmuch as the large quantity of reports in our files concerning the persons mentioned precludes the setting out of detailed information on each person, this report is limited to the pertinent extracts of these reports necessary for a general evaluation of the reliability of your informant.

2. Basically, the information furnished by your informant is both old and often-repeated. Reports containing information similar to that supplied by your informant have been received by this Agency from emigre sources in such quantity as to suggest that these allegations are a matter of common gossip in the various Displaced Persons camps, etc.. It should be noted, therefore, that your informant is possibly repeating information which he heard and believed, particularly what such sub-sources as DULEVITCH and KIRONE told him.

3. The background information your informant has furnished on the various individuals is generally confirmed by our available information. His allegations concerning the "Soviet agents", however, cannot be verified, although the individuals he mentions admittedly have questionable backgrounds.

4. The files of this Agency failed to reveal any information regarding Vasily ~~X~~AYDAY, was; or Vasily ~~X~~UCHENKO, was..

5. Regarding Georgi Vasilevich ~~X~~UTOV & Carl ~~X~~ULEVITCH, a report received in March 1949 by this Agency from a fairly reliable source contained the following information on an individual probably identical with him: "Bruno ~~X~~ULEVITCH & Georgi ~~X~~UTOV - born in Riga, Latvia, on 3 August 1902. Description: 5'7", slender build, brown eyes, oval face, dark hair turning gray, small moustache. Lives in Hamburg, Germany, Schluterstrasse 4, under the assumed name of Georgi ~~X~~UTOV. During World War II, he was assigned to the NSKA, Art VI, "Unternehmen (Operation) ZEPHULIN", because of his knowledge of Russia and the Russian language. He is described as strongly anti-communist and absolutely reliable."

(3)

SECRET

6. Our files also reflect that one Major Otto ~~KADJARASHVILI~~ was the chief of the RKA, 1st VI, NKVD section; it is quite possible that he is identical with the R. KADJARASHVILI referred to by your informant as ~~KADJARASHVILI~~'s chief in "the Gestapo". However, there is no information in our files indicating any postwar contact between the two, as alleged by your informant.

7. The information regarding Nika ~~KADJARASHVILI~~ reported by your informant and reflected in your files from another informant is generally confirmed by our available information, including a report indicating that she committed suicide. She has previously been reported as a mistress of Mikhail KADJARASHVILI, who is believed to be identical with the Mikhail KADJARASHVILI mentioned by your informant, and she allegedly worked for KEDIA on the Georgian liaison staff which he directed for the Germans during World War II. After the war, she joined KEDIA in Switzerland at his request, later returning to Germany. It was later alleged that she was in contact with a Swiss KIS agent, which may be a reference to KEDIA; however, the allegations that KEDIA has been connected with the KIS have never been substantiated. NIKORSE doubtless furnished information to several intelligence services.

8. Our files fail to reflect any information on Ivan CHAVICHVILI, and a query to the field had negative results. However, the field suggested the possibility that your informant may have been referring to one Xhariton CHAVICHVILI (also frequently reported as CHAVINCHVILI, CHAVICHVILY, CHAVICHVILY, and CHAVICHILLY), who has been an official Georgian representative in Switzerland for many years and is an associate of Mikhail KEDIA. Our records failed to indicate that CHAVICHVILI was associated with the International Red Cross, although a report from a fairly reliable source alleged that he had a close contact who was a member of the Centrale Sanitaire Suisse, a left-wing medical aid organization which is allegedly supported by the Soviet Legation in Bern. This report further alleged that Mikhail KEDIA was associated with the Central Sanitaire Suisse. On the basis of a letter written in January 1947 to KEDIA by CHAVICHVILI, a copy of which is contained in our files, it appears unlikely that the two are working together as alleged by your informant, since CHAVICHVILI was highly critical of KEDIA's activities - stating that KEDIA was "the center of a Fascist group" and accusing him of engaging in "all manner of intrigues". However, another report, from source of unknown reliability, alleges that KEDIA claims credit for saving CHAVICHVILI's life during World War II when CHAVICHVILI was about to be shot in an SS camp "for making Bolshevik propaganda" among the prisoners of war. If this report is accurate, it obviously would put CHAVICHVILI under obligation to KEDIA.

9. Our files contain a report from a usually reliable source concerning one Nikolai Leonidovich ~~VASIL'EV~~ ~~GRACHEOV~~, who is possibly identical with the Leonid ~~Vasili~~ GRACHEOV mentioned by your informant

**SECRET**

## SECRET//INFORMATION

as being a Soviet agent. This report also states that VASILYEV moved to Berlin after the Russian Revolution, and claims that he was imprisoned in a German concentration camp during World War II. He was in Berlin at the time of its occupation by Soviet troops in May 1945, and worked as an interpreter with the Soviet Military Government in Berlin. In 1948, he moved from Berlin to Hamburg, according to the report, and was wearing the Soviet medal "for taking Berlin". He allegedly states that he received this medal for the services he did the Soviet Army in 1945 while de-mining Berlin. Our source further stated that VASILYEV was a member of the Black Sea Cossack chorus, but in 1949 he was removed by the conductor, Boris LADINSKI. According to our source, LADINSKI is now in New York, and it is suggested that an interview might possibly determine the reason for VASILYEV's dismissal from the chorus. There is no mention of VASILYEV's contact with anyone named KURAKIN. It is noted that the CIC Region III Periodic Report for the period ending 29 January 1949 contains further information on an individual believed identical with the VASILYEV mentioned above.

10. Regarding Baron Georgi Mikolaevich VANGEL, our files reflect a report from a source of unknown reliability concerning one (Baron) Georgi VANGEL, a journalist, who was living in Hamburg, Germany, in 1950. The report alleged that during the spring of 1950, he published in the Hamburg weekly Die Zeit a series of articles on the strength of the Soviet Army, which made a considerable impression. Although the report stated that VANGEL was active in the "anti-commintern" during World War II, one of his contacts was listed as Prince KURAKIN, fmr, "who was active for Soviet intelligence".

11. Our files reflect no information on Mikhail KURAKIN, mentioned by your informant as VANGEL's AD chief. The possibility exists that he may be the "Prince KURAKIN" referred to in the above paragraph. It seems possible that a Prince Andrei KURAKIN may be the individual referred to in both cases above. KURAKIN (KURAKIN) is employed by the United Nations in Switzerland, and there have been allegations that he is a Soviet agent. Reference is made to memoranda sent to this Agency by your Bureau on 2 April 1948 and 13 May 1948 for further information concerning him.

12. The files of this Agency contain extensive information concerning Mikhail ALCHIRAYA, which is probably another spelling of ALSHIRAYA, a brief summary of which follows: He was born 21 November 1908 in Kutais, Georgia. Description: about 5'7" tall, thick set; weight approximately 200 lbs; thinning brown hair; small triangular beard; yellowish complexion; Asiatic appearance; speaks Georgian, German, Polish, French, some English, and probably Russian. He arrived in Berlin in 1921, and attended various schools in Germany. ALCHIRAYA volunteered for the German Army in 1941. On a furlough in Berlin, he met Mikhail KUDIA, and it was due to this contact that he was discharged from the army in 1943 and appointed to serve on the

SECRET

## SECURITY INFORMATION

Georgian liaison committee under KEDIA. He allegedly held the position of treasurer on this committee. Since the war, there have been numerous allegations, principally from emigre sources, that KEDIA was working for Soviet intelligence as well as for friendly intelligence services. He has also continued his interest in Georgian affairs, serving as a member of the board of directors of the Georgian Committee in Munich, Germany, and as a Georgian representative to the Anti-Polshevik Bloc of Nations (APB). Regarding your informant's allegation that he was working for the RIS under KEDIA, a report contained in our files dated March 1947 from an emigre source of unknown reliability reflected the same allegation, but no substantiation has been received.

13. This Agency also has considerable information regarding one ~~Mikhail~~ KEDIA, who is probably identical with the ~~Mikhail~~ PAULI mentioned by your informant; a brief summary of this information follows: KEDIA, ~~Mikhail~~ (Michael), ~~KERESK~~, Michael, ~~DUMKEITH~~, ~~Michael~~ & MICHAEL, M. Born 23 February 1902 in Tiflis (Georgia); last reported living in Geneva, Switzerland; he left Georgia in 1921 with his family, arriving in Paris in 1924 after spending the interim in Turkey and Germany. In Paris, he and his father-in-law founded a small yogurt factory from which he still reportedly derives an income. KEDIA became a leader in Georgian activities and, during World War II, he was utilized by the German Intelligence Service in the ZEPPELIN operation to recruit agents for infiltration into Soviet-held territory. He became, for German Intelligence, the leading figure in Caucasian affairs, and he had many high-level contacts in connection with his duties. He worked closely with SS Major Erich (also reported as Otto) ~~HORNIGAUFT~~. SHERPAVA, PEKODSE, and ~~DUTOV~~ & DULKEITH are among the emigres who reportedly served with the Georgian liaison Staff which KEDIA headed. In 1945, KEDIA, with members of his Staff, went to Switzerland. Since 1945, there has been a considerable volume of reports from various sources, most of whom are of unknown or dubious reliability, describing KEDIA as a high level agent of the RIS. On the basis of our available information, however, his current activities and political loyalty remain unfathomable.

14. As the above summaries indicate, many allegations similar to those made by your informant have been received by this Agency on the various individuals mentioned in your informant's report. These allegations cannot be proved or disproved on a basis of our available information, nor can they be evaluated through investigations in the field without a vast expenditure of effort. Since your informant is willing to rest his case on the files in Hamburg, the desirability of obtaining these files is apparent. It would be appreciated if your Bureau would interview the informant as to the source of these files, whether they contain information obtained from DULKEITH or from KERESK, what period they cover, etc.

 SECRET

SECURITY INFORMATION

SO DB - 48096

15. This Agency offers the Informant a direct check of its files for information on your informant. It is quite probable, on a basis of the volume of information already uncovered, that our files will contain information.

16. This Agency is interested in obtaining the informant's files in Germany, and would welcome further discussion along these lines. It is felt that it is most important, however, that the informant not know of this Agency's interest in the matter.
