To whom it may concern:

My name is Ivan Hernandez. I am a producer at Telemundo in Los Angeles. I am writing to seek information pertaining to specific events and certain individuals the CIA may have records for under the provisions of the Freedom of Information Act.

My colleague, Maria Garcia, previously requested the same information on September 12, 2002. The request was given a reference number. That number is F-2002-01542.

We are seeking information or confirmation of the following:

- 1) Eduardo Diaz Silveti, A Mexican citizen born 9/2/1929 worked with the CIA on an operation
- 2) A CIA operation that supposedly took place on December of 1959 in Mexico City where Mr. Diaz Silveti claims he assisted the CIA and NASA obtain information on the Soviet space program, specifically the Lunik 9, from a Science and Technology exposition put on by the soviets in that city.

Also being requested is information on whether or not the following people worked for the CIA and if they had involvement in the above mentioned operation:

- 3) Warren Dean
- 4) Winston Scott
- 5) Robert Zambernardini Luchi

We did receive a response from the Central Intelligence Agency neither confirming or denying the information sought. We are writing again to see if there is any new information available that may not have been at the time of our first writing.

Please feel free to contact me at or my email
Please also mail me any documents or information possible at:
