I am writing in regards to ask what kind of services do you have available.

maybe you can answer me a question.

A friend of mine name [Redacted] Claims he is a Secure, Party, Creditor, and he has access to a hundred million dollars in credit through the U.S. Treasury.

(b)(6)

How true is this? Plus he said, that the officers of the Government back in the 1930's put hundred million dollar bonds on birth certificates to use these bonds to pay off other cooperations because U.S.A. Cooperation became in debt to another country.

This sounds like Fraud, and High Treason against the American Citizens,
How true is this?

Please shed some light on this, if you will?
Respectfully.

Jason, McClellan: [Redacted]
