Request:

I am requesting information on the CIA's use of unwitting human children as test subjects for mind control programming in San Francisco, CA, from 1990 through 1999 focusing specifically on underground tunnel systems connecting the Noriega Preschool to medical facilities where experiments were performed. These experiments involve doctors, child sexual abuse, and mind control techniques to induce multiple personality disorder.

I would also like to request information on the D.U.M.B (deep underground military base) biomedical facility located beneath the Benicia Strait in Benicia, CA, regarding the creation of genetically enhanced supersoldiers by splicing the DNA of human and animals, specifically dolphins, occurring over the last 2 decades.

I would like to request information spanning the last 4 decades regarding the kidnapping of transients in Buena Vista park, located on upper Haight street, in San Francisco, CA, and how the facility beneath the park is using LSD to assist in the implantation of post hypnotic suggestions in the transients to be activated after their release.

I would also like to obtain all records regarding The Finders cult and how the San Francisco Police Department is involved with the cult to obtain children for medical experiments in Buena Vista medical facility.

Thank you greatly

L.M.

Fee Waiver:

I am requesting a fee waiver because I have driven myself into debt researching this subject exhaustively over the last 5 years. Perhaps not the most compelling reason, but it is the truth. I cannot afford to pay anything.
