Subject: Red Mango Closing Time
Feedback: I have noticed that the person operating the Red Mango kioske habitually closes up much earlier than 5:00. I have been down there on occasions around 4:45 and the machines were completely turned off and all the ingredients (toppings) were put away. I went down yesterday at 4:15 and all the toppings were put away except for about two. If you're going to operate a business and the closing time is 5:00, then customers should expect to be able to order regular menu items up until that time.
