THE FASCIST INTERNATIONAL

15P

General

1. ~~NRG~~ The European Popular Movement (EPM) is an anti-American and an anti-Soviet fascist organization. Although the EPM is independent of the European Social Movement (ESM) and the European Liaison Office (ELO), some of the leading personalities of the EPM in France, such as Maurice BARDACHE, Henri BONIFACE, and René BIRET, are also members of the ESM or the ELO. Gaston AIOU, the honorary president of the EPM, lives at 42 Rue de l'Yvette, Paris 14^e.
2. The Italian Social Movement (MSI), the ENP, and Otto STRASSER had planned to convene a congress in Rome; however, the congress will not meet because of a quarrel between the MSI and STRASSER over the issue of South Tyrol, the same issue which caused the conflict between STRASSER and the ESM.
3. On 1-2 October 1955 the German section of the ESM held its congress at Bad Honberg. The German authorities are making inquiries into the financial sources of the German section, since it has only 800 members, of whom 300 do not pay dues. Nonetheless, the German section is known to spend considerable sums of money, a portion of which comes from England (Osvald HOEGLI) and from France.
4. The European-Arabian Study Commission was established in Vienna by Oskar HUEMER, member of the Austrian section of the ESM and a former member of the National Council, and (Dr.) Hans WILHELM, both of whom are from Vienna. While the official purpose of the Commission is listed as trade with Asia, it is merely a cover for ESM activities. No British, French, or Jewish firm may participate in the Commission's trade activities.
5. The ELO is in a difficult position following the resignation of Guy AMAUDRUZ as secretary-general, and BIRET has complained that the work of the French section, Comité National Français, has become more and more difficult. The choice of the MSI to direct the work of the ELO has brought strong objections from both the German and Austrian sections. The German bloc in the ELO wishes to maintain at least the Swiss People's Party and the Austrian Freiheitliche Sammlung Oesterreichs as an ELO nucleus.
