Hi,

Can you both pop up when you get a chance...I want to discuss this and the "tweaks" they want to do...I have no problem saying no if it creates more problems.

I have been crystal clear that its a 9-3 hardstop. Security stops work then. I did say to [Redacted] that if they stop and delay in one part..then that will sacrifice part of the shoot elsewhere.

(b)(6)

We have firm budgets for security and I will not nor am I authorized to have them go over the 7 hours.

Respectfully,

(b)(3)

Hi [Redacted] and Toni-

(b)(3)

I just wanted to compare notes on items that will be at the interview and display items that will have the glass removed for the day. For the displays where glass can only be moved two-thirds of the way, once we are done shooting the broll in the morning, can we close the displays back up before the walk and talk? It might look a bit distracting if those particular cases appear half opened while Richard and Toni are discussing the exhibits. If I'm missing anything that we discussed yesterday, please let me know! Best,

(b)(6)

[Redacted]

Artifacts that will be at the sit-down interview:

- Hollow coin
- Microdot camera
- New artifact: section of A-12
- Lithium iodine battery
- Match box camera
- Cufflinks
- Tobacco pouch camera
- One-time pad
- Insectothopter

Artifacts to stay in display with glass removed:

- Scale model of UBL compound
- UBL weapon
- Display that includes the sub miniature camera and pigeon camera
- Enigma machine
- Display of guns/weapons in OSS wing (these are the displays with the swinging glass doors)
- Hitler stamps
