THIS IS UNEVALUATED INFORMATION

SOURCE Former Japanese Army officer with intelligence experience from contacts in rearmement circles.

- A Chinese Commist leader who is an official in the Chinese Communist Government, last year revealed the existence of a document entitled "Strategy est was developed by the cooperative Plan for Invasion of Japan." The door Plan for invasion of Japan." The document was developed by the cooperative efforts of Soviet Russia and Commist China. According to the plan, invasion troops would land in Hokkaido and Kyushn, where they would organise and lead the Japanese Commist forces of the areas. However, the main body of troops would land on the coastline running from Higgsta to Ishlinum Prefecture. Alleged Japanese Commist Party documents disclose that the Japanese Commist Party has telephotographed the coastline of the Japan Sea running from Higgsta to Tamaguchi Prefecture.
- Russian-made arms are being secretly shipped into Holkaido and into the Japanese islands through Sado Island and the Noto Peninsula. (Lat. 37 Long. 136 44 B)
