Further on Higashimura Norihiko -

Higashimura Norihiko on May 11, 1956, reported that he is the head of the League for the Construction of World Federation. The article reporting this information concerned a World Peace Appeal Committee which planned to organize an Afro-Asian Conference against atomic bomb tests and to push this movement through such organizations as Mr. Higashimura's. It is not clear from this report whether or not the latter favors the purposes of the World Peace Appeal group.

A separate translation of the same report gave Higashimura's wife as head of the League.
