NOTE FOR HOETTL FILE

OUT 53983
DIR 18757
13 Sept 52

(IN 35004)

Appears HAAS and HOETTL attempting to set up liaison link with Italian Service on completely opportunistic basis. ~~HOETTL probably~~
~~trying to establish link-up which will be sold to Blank office~~
via HOETTL. Between them will probably try to hoodwink both Italian and German services by claiming key contacts with each. These contacts actually not existent, of course. "Director" of German Service whom HAAS has promised to introduce to Italians probably will turn out to be HOETTL. (Cites HOETTL's disrepute with all services including Zipper and fact that HOETTL approach to HAAS reported by latter to Detachment 35.)
