Approval of Minutes

1. Action: The minutes of the meeting of 27 September 1951 (IAC-M-46) were approved with the deletion in the first and second lines on Page 2 of the words, "and possibly" and "and intentions."

Estimate of Strength and Capabilities of Soviet Bloc Forces to Conduct Operations of NATO. (SE-16)

no record of release
SE 16 (12 Oct 51)

2. Action: This estimate was approved with minor changes and with new paragraphs 2a, 11, and 36.

It was agreed that this estimate would not be published but would be sent to the JIC for use in discussions with the British and French through the Intelligence Committee of the NATO Standing Group. State, CIA and the three Military Services named representatives to sit with this tripartite group in writing a combined estimate. Admiral Johnson was designated as the intelligence chief available for consultation in connection with this project.

3. Discussion: The principle discussion centered around Paragraph 2a of the estimate and the rising curve of internal tensions that are expected to develop in the Soviet Union in the event of war. An attempt was made to identify the stage at which these tensions would pose a serious obstacle to Soviet ability to sustain a major war effort.

4. It was understood that the U. S. should not discuss this estimate bilaterally with either the French or British prior to the tripartite discussion. This would not, however, prevent various U. S. intelligence officers from talking informally on specific points with either the British or French.

Proposed Estimates

5. Action: It was decided to undertake an estimate on as proposed by the JIC. CIA will rephrase the G-2 proposal for an estimate on strategic areas and materials and will resubmit it for discussion at a later meeting.
