(b)(3)

Re BASE 057(OUT 88022)

1. Re para 3. Both [] and [] can land at []
Probably [] could also make it but none have actually landed
on new field. Field located immediately adjacent [] side
[] Runway runs east and west. Usual procedure is to
land from west to east and take off east to west. VHF air-to-
ground available on [] field is operated by Chinese air-
force. No Soviet control at this field. No inspection of
supplies if destined for covering Mission. Clearance to land
must be obtained from Chinese hq and confirmed by Chinese AF
[] Planes with US or no insignia should not be sent.
[] has made trip before and should have no trouble.
