JK

TO: Commanding Officer
 300th Mission to Austria

FROM: DEBON

THRU: Acting Chief, FBI, and DEBIS

SUBJECT: Richard TAUBER - KLATT files.

REFERENCE: Memorandum dated 4 August 1946 DEBON to Acting Chief, FBI, and DEBIS, subject as above.

1. As requested in paragraph 1 of the reference document, copy of which is attached, the two copies of a KLATT which were brought to the Washington Desk by WHP, are furnished herewith.

2. The materials suggested for duplication in the reference memorandum have been copied and will be filed for use by the Washington Desk. In addition, a complete index has been made of each dossier, so that request can be made for any material contained in these dossiers which might be needed in any future studies of the subject case. A copy of the index is included in each dossier and copies will be retained by the Washington Desk.

3. If, in the opinion of DEBON, it would be advisable for the Washington Desk to have copies of the German documents written by Tauber, it is requested that these be forwarded in translation. Due to the shortage of clerical help and the desire to forward the documents as quickly as possible, these German documents have not been duplicated here. Effort has been made, however, of the individual sheets mentioned by DEBON in the last paragraph of the reference memorandum.
