OPERATIONAL

MGKA-36225, KIBITZ Field Project Outline - 1 January -
30 June 1952

REF: MGKW-11324

1. The first reference given above, dated 19 December 1951 forwarded field project outline for KIBITZ for the first six months of calendar year 1952. As of this date, we have received no word from Washington as to whether or not the field project was approved. However, as was stated in paragraph one of our MGKA-36225, we have continued to operate on the basis that the project has Washington's approval.

2. In MGKW-11324, dated 6 November 1951, approval for the KIBITZ project was given for the entire calendar year 1951. As we have only given the field project outline for the first half of calendar year 1952, we have wondered whether or not you will give approval for the project for the entire calendar year 1952 based on our MGKA-36225, or whether such approval will only be for the first six months of calendar year 1952.

3. We are drafting a new field project outline now, but would appreciate a decision on MGKA-36225 as soon as possible.
