CAVATA Comments on C

Information on Petrus

REFERENCE - A. EGNV 505, 12 October 1956 B. ONHA 8461, 26 October 1956

- 1. The iscormation on NOUYMANS which was transmitted to this office under both references was passed to CAVATA via ODOFAL without, of course, revealing the origin of the information.
- 2. Upon receiving this information, CAVATA commented that they had received similar information on a (fnu) KOOYMANS through their own resources. However, their subsequent investigations have revealed that the KOOYMANS on whom we provided information is not identical with the KOOYMANS on whom they originally requested traces (sic)*. These investigations have shown KOOYMANS to be a convinced anti-Communist. They also pointed out that KOOYMANS is a fairly common name in Holland.
 - 3. We assume that CAVATA is employing KOOYMANS in a covert capacity.

*(Field Comment: We balleve what they really mean here is that the two persons are identical, but that the derogatory information does not apply to KOCYMANS.)
