SUBJECT: GENERAL—OPERATIONAL/CASE

SPECIFIC—⁰Dropping of KIBITZ-9a

REF: MGKA-22261, MGKW-11941

1. References are PRQ Part I and granting of full operational clearance respectively for subject.

2. Subject is hereby dropped without prejudice. Subject has shown no interest for some eight or nine months in continuing training as a W/T operator in the KIBITZ Program. The main reason for this lack of interest appears to be that subject has gotten "cold feet".

has made three attempts in sixty days to contact subject in an effort to set a new training date. In each attempt, call or letter was either ignored or subject very hastily said he did not have time or did not know when he could even talk to

3. Subject was trained on a part-time basis on two occasions in 1950 and a number of occasions in 1951 -- the last being on 12 July 1951. His previous radio experience gave him a good basic knowledge of radios and, with part-time training one or two hours two or three days during May, June and July 1951, he reached 15 wpm receiving and 11 wpm sending.

4. Operationally subject knows the following:

a. Subject never received any training in DYCLAIM W/T procedure.

b. Subject has seen but does not have in his possession the following W/T equipment: instructograph; ADK; oscillator and SSTR-1.

c. Subject was trained by the following staff W/T instructors: and (none are with KIBITZ Program now) under unknown aliases.

d. Subject knows the following staff personnel:

as Mr.
 as Mr.
 Mr.
 as Mr.

e. Subject knows only the ULM Safehouse, Galgenbergweg 20 (which we will vacate by 1 November 1952).

5. [] requested in MGKA-30937, 18 July 1951, 500 DM to assist KIBITZ-9a in the purchase of a motorcycle. This was approved by COM here. EE approval was given in MGKW-11763, 4 December 1951. [] gave the money to KIBITZ-9a who then purchased a motorcycle. [] of Supply Section, COM, checked supply records and there is no supply accounting of this motorcycle or the 500 DM given to KIBITZ-9a for this purchase.

6. There is no secure means available to the undersigned to obtain the motorcycle or reimbursement for the money given to KIBITZ-9a for this purchase. As stated above, KIBITZ-9a has "cold feet" and any attempt on our part to discuss reimbursement now would probably be a security risk. It is therefore requested that accountability for this expenditure be dropped from the KIBITZ account in Finance, and that supply be so notified.

7. Dropping of subject will not pose any security problems because, with the move of KIBITZ operations out of ULM, he will have no link or tie-in to staff personnel or the operation. In addition, his operational inactivity for over a year make remote the possibility that his KIBITZ relationships would lead to surveillance of the operation. There is no indication that his "cold feet" have lead to his doubling on us. In fact, from what I can learn of the man, it is felt that he would like to forget the whole episode and would not, in self protection, mention it to anyone. His year's lay-off from operations has probably served to blurr his memory of the KIBITZ project.
