DISPATCH STREET, AND NUMBER

3. \_\_\_\_\_ The reference dispatch advised Munich to discuse ARENCEMA/1's dual role for KURARK and UPHTLL with UPHTLL. UPHTLL will be asked for an evaluation of AEDOOMA/1 and the type and extent of their use of him. Some of the other points in the study will obviously have to be handled by Munich. Trace requests sent to COG, Germany, COM, Born, Berlin, Frankfurt, Hamburg, MOG produced no new information on Subject, his ex-wife and his ex-mistress.

4. To Munich: In the view of the current case officer, KUMARK is paying ANDOGMA/1 enough salary and expenses for him to be able to afford the second apartment, so we do not believe a check of his finances would be too productive--unless, of course, we are able to learn the amount of his income, if any, from UFMILL and, by elimination, determine if he has other sources of income not previously mown to us. We do not know what facilities (\_\_\_\_\_\_) has for the stake-out and audio-surveillance requested and would appreciate your comments on these points, as well as some of the others raised in the study, the answer to which must come from your (\_\_\_\_\_\_)

5. Please note that the Headquarters file number for this operation has been changed from the 29-5-105 category to 74-5-63 (the old ANNATH number) in order to more closely reflect the area of operational interest.

6. We regret that the study was not forwarded sconer, but in order to secure renewal of the POA, or an GA, the points raised by KNEMEK will have to be answered if at all possible. We would appreciate your early reply, as well-as the operational review of the case promised. At in OFFA 59900, of 18 July 1964.
