29 August 1975

Mr. David Kairys
Kairys & Rudovsky
1427 Walnut Street
Philadelphia, Pennsylvania 19102

Dear David:

In line with our telephone conversation, I am enclosing a copy of diary entries by Mr. Lyman Kirkpatrick, a former official of the CIA. These diary entries deal with Mr. Kirkpatrick's activities relating to the Olson case immediately subsequent to the death of Frank R. Olson.

The reason that this information is being released to you at this date is that the diary entries have only most recently been discovered in connection with a record search, unrelated to the Olson matter, undertaken for the Senate Select Committee on Intelligence Activities.

You also asked if we would look further to see if any pages had been separated from the fourth item of the inventory: "Memorandum for the Record: From: Sheffield Edwards, Subject: Suicide of Frank Olson, Army Civilian Employee, Camp Dietrich" dated 28 November 1953. Apparently the third and final page of the memorandum was separated from the first two pages when the documents were assembled for turnover to you. It is also enclosed.

With respect to your question regarding the Inspector General report mentioned in the Rockefeller Commission Report, there is no mention of the Olson case in the IG report.

You have copies of the letters of reprimand that were issued with respect to this matter. To make your file complete, earlier drafts of these letters are also enclosed.

I indicated to you that the Director or the Inspector General would sign the affidavit you requested. In light of the Director's absence from the city and the fact that the IG has closer personal knowledge with respect to the
