Operational
CAUTERY

MGBA-13065; NOBA-13031

1. We have no identifiable record of [] friend, Petrovich
OLII. You may have only [] word for the progress made for
a while, but this type of operation looks promising.
2. MGBA-13065 is encouraging and helpful in bringing our records up
to date. Please let us know in your next progress report what happened to
[] who were still active at the time of Progress Report
-10372 of 18 October 1951.
3. The Agent Service Record is still a desirable routine, especially
sub-agents who have known other agents in their chain. Routine submit-
of these forms for all CAUTERYs dropped in the future will be appreciated.
