

Kissinger Press Conference at Harvard University - October 15, 1976

Q Mr. Kissinger, I understand the United States is investigating the cause of the crash of the Cuban plane off Barbados.

A Yes.

Q Can you tell me who is doing the investigating, what the investigation has learned so far?

A To the best of my information, we have asked the CIA to check into it. I don't know whether the FBI is making a formal investigation of it. We have offered the governments concerned any assistance that they might request since it did not occur on American soil. But I can state categorically that no official of the United States Government -- nobody paid by the American Government, nobody in contact with the American Government -- has had anything to do with this crash of the airliner. We consider actions like this totally reprehensible.
