~~SECRET/SENSITIVE~~

Approved for Dec 9 1974

August 20, 1974

REFER TO DOS

DOS REVIEWED 09-Mar-2011: NO OBJECTION TO DECLASSIFICATION.

Dear Mr. Foreign Minister:

As Secretary Kissinger promised, attached is the list of military equipment indicating dates of availability. In some cases, where the items must come from the production line, you will note that scheduled availability from production is far into the future. On those items, we will take whatever steps we can to develop a better production schedule or otherwise reduce deliver time, and those lead times should not at this point be considered definitive.

If you have any immediate questions on the list, you could give a note to the courier who delivers this. Any further questions could probably best be passed through General Guay.

Sincerely,

Brent Scowcroft
Lieutenant General, USAF
Deputy Assistant to the President
for National Security Affairs

OSD REVIEWED 08-Mar-2011: NO OBJECTION TO DECLASSIFICATION.

His Excellency
Ismail Fahmy
Minister of Foreign Affairs
of Egypt

(Delivered by courier)

(SECRET/SENSITIVE)

<u>ITEM</u>	<u>AVAILABILITY</u>
Unattended Sensors for Tanks & Personnel	Available from production line with a lead time of 12 months for first delivery
Bomb, CBU-58	Available within 90 days
Portable Lightweight Sensors	AN/APR-39 (for helicopter) available from production line with lead time of 6 months
Torpedoes, MK-46	Available from production line with deliveries during August-October 1975. Also requires aircraft change kit for Sea King helicopter
Helicopter (Huey B)	Available in "as is" condition, equipped with SS-11 missile, within 60 days. With over- haul would require additional 6 months
Radar, TPS-58A	Available from production line beginning July 1977. Sale requires agreement of France and Germany
TOW Launcher	Available from production line with lead time of 30 months for first deliveries
TOW Missile	Same as TOW Launcher
Drone, Target	Target drones are available within 90 days without control system. (No control system is available). Ground launched reconnaissance drone is available from production beginning 18 months after signature of letter of offer.
Bomb, ROCKEYE	Available within 90 days
MAVERICK	Available within 90 days (would require air- craft modification)
WALLEYE	Available within 90 days (would require air- craft modification)
F-4	Delivery times not yet available
175	Available from production line beginning in October 1976
