

Friday morning

the attention
-Doctor Kissinger for Mr. Ford ..The President of USA

PLEASE MAY I QUICKLY TELL YOU THAT PRESIDENT FORD,S SPEECH AND
THE DELIVERY WHERE OF SUCH SIMPLE AND DIRECT MEANING AND POWER
THAT THE PRESS GALERY ::THE PHOTOGRAPHERS , THE LITTLE GIRLS
AND LITTLE BOYS THAT DO THINGS FOR ALL OF US WERE PRACTICALLY
IN TEARS (which really means what the British call or used to cal
" The humble people " - most of the applause came from the top
and the eyes were ever so soft .

What a marvellously right fact to mention - that All Americans
are made of European blood except for thoses who are not, I suppose
M. Trudeau missed out on that --and it is so vitally important to b
bring this knowledge home now and forever .

Thank you Mr. Ford and Mr. Kissinger for having
turned this Hall for half an hour into a demonstration of human
faith --it sounds so pompeous - but it is true - and we all know
about what are our children are facing ..and that unmentionably
dangerous Continent called Africa which includes Arabia .

I felt in a strange way during your speech that tho
though you are men of power at the moment - the simple truth of bei
being a man - a woman - a parent cut through all the Power Stuff .
Maybe I wishdream for I have a large family and half of them in
the States studying and working .

Enough of this boredom

Th^{nk} you
