

TOP SECRET/NODIS

January 7, 1971

TO: HAK

FROM: Dick Kennedy

These two cables which get Tasca and Ambassador Lodge involved in contacts with Constantine in Rome seem inconsistent with guidance on keeping contacts with him at a low level. As the cables note, Constantine's entourage probably has been penetrated by the Greek Junta. How they will take this kind of contact is open to speculation, but it probably wouldn't be good.

Note that neither cable was cleared with NSC staff.
