1. This organization wishes to send one LOCHNER to Turkey for the purpose of developing strategic intelligence lines into the USSR. He will go there as the representative of a Swedish firm with which arrangements have already been made.

2. LOCHNER was once a member of the German Intelligence Service and was for that reason placed on some sort of black list, which prevents his being given a Turkish visa on his passport. It is believed that he was put on this black list upon request of the American government in 1945. All other necessary visas have been secured and it only remains to secure the Turkish visa.

3. Personal data of LOCHNER:

Ronald LOCHNER
born 17 June 1912
at IZMIR/Turkey

d/pw

4. It is requested steps be taken to have LOCHNER removed from the black list.
