94-2

B

Project HSNHRA, Subproject 94

Date Initiated: 5 December 1959

Date Expires: 1 January 1962

Funds-current year: \$40,000

Purpose: To investigate techniques and brain locations essential to systems utilizing conditioning and which provides optimum dissectional control of selected species of animals. Specimens of selected species will be prepared for use in related programs. Pertinent biological data will be developed as required.

Status: This is a continuing investigation. Specimens of three species will be more ready for use in related studies. Work has been started to develop experimental biological data request.

INSTRUCTIONS

Line or
Section

1. Enter on line 1 the amount of cash on hand at the beginning of the period.
2. Enter on line 2 the amount of outstanding advances made to third parties, brought forward from the previous accounting period.
3. Enter in this section the amount of each receipt during the accounting period showing pertinent data, i.e., method or source of acquisition and applicable rate of exchange, if indigenous currency. If more space is required to explain receipts, prepare receipt form, number and attach hereto. In every case, completely identify the source of receipts.
4. Enter on this line the amount to be accounted for which shall be the sum of amounts shown in 1, 2, and 3.
5. Each amount listed in this section shall be supported by a voucher consisting of either the receipt obtained from the payee or in lieu thereof a certification explaining the lack of a receipt. If the number of entries exceeds the available space they may be consolidated as one entry in section 5 and supported by a listing of the individual entries on a separate sheet.
6. Enter on this line the amount of any refunds of advances by the advancee indicating whether by cash, check, or money order.
7. Advances made to third parties which remain outstanding at the end of the accounting period shall be consolidated and the total entered as a single amount on this line supported by a listing on a separate sheet. Final credit will not be given for disbursements which are advances to be accounted for. When accountings for advances are obtained, list as expenses or refunds of cash, as appropriate.
8. Enter on this line the amount of cash on hand, or if the amount of the disbursements exceeds the amount advanced the balance due the advancee shall be shown in parenthesis, i.e. (), and treated as a minus amount in arriving at the "Total Accounted For", line 9.
9. Reflect on this line the "Total Accounted For" which must agree with the amount shown on line 4, "Total To Account For".

94-4

16 February 1967

MEMORANDUM FOR : The Record

SUBJECT : IKULTRA Subproject 94

1. IKULTRA Subproject 94 was terminated in November 1962. The accounting submitted by the project officer reflected expenditures of \$54,931.45 against an advance of \$55,222.90. The remaining funds held by the project officer were refunded by check made payable to [REDACTED]. H

2. Analysis of the IK [REDACTED] bank account reveals that this refund was not recorded in the IS [REDACTED] bank account. The custodian of the [REDACTED] bank account has agreed to make a refund of this amount or to make this amount available for use by the Agency. H

3. As the activity has been closed an amount of \$291.45 should be cleared from the Memorandum Account (760.0) and the previously recorded expenditure, 2125-1390-3902 NOR-974. A

[REDACTED]
TED/DF

11 June 1964

REFERENCE FOR : THE RECORD

SUBJECT : INHIBERA Subprojects 70, 91, 94 and 135

B {

Since the completion of the audit of Project INHIBERA for the period 1 August 1960 through 31 January 1964, accountings have been received from [redacted] in the amount of \$21,677.93. This amount is part of the \$41,117.53 balance to be accounted for by [redacted] [redacted] at the end of the audit period.

Subproject 70 incurred direct costs of \$2,518.34 and \$27,672.16 transferred from subproject 94, for a total of \$30,190.50. Subproject 94 incurred a amount of \$71,334.67, but transferred \$4,163.71 to subproject 91 and \$1,671.16 to subproject 70, leaving a net cost of \$39,600.00. It was decided to charge the funds for subproject 135 to subproject 91, therefore their costs were included in the accounting from subproject 91.

Because (a) 1) all four of the subprojects had the same basic research goal in mind, 2) the great length of time that has elapsed since the grants were made, and 3) the difficulty in getting accountings of any sort from the agencies, it is recommended that we facilitate this matter by accepting for the balance as shown in the [redacted] [redacted] account for these subprojects.

G

G

The above has been concurred in by [redacted] of the Audit Staff.

A

[redacted] A
Chief Scientist, INR

INSTRUCTIONS

1. If funds, in the form of other than U.S. Dollars were on hand, received, or disbursed during the accounting period, all pertinent data, i.e., rate, method of acquisition, etc., must be shown. If advances have been made to third parties, enter the total of such advances outstanding at the beginning of the accounting period on line 1a.
2. If more space is required to explain receipts, prepare receipt form, number and attach hereto. In every case, completely identify the source of receipts.
3. Attach a voucher for each expenditure and assign a number thereto in numerical sequence. The voucher may be the receipt obtained from the payee. When a receipt is not obtained, prepare a certificate and attach as a voucher. When space on form is not sufficient to list all vouchers, prepare a listing on a separate sheet and enter the total under item 3. If advances to third parties are outstanding at the close of the accounting period, attach an itemized list and enter the total on line 3a.
4. Final credit will not be given for disbursements which are advances to be accounted for. When accounting for advances are obtained, list as expenditures or refund of cash, as appropriate.
5. Total receipts entered on the line "Total to Account For" must agree with the total disbursements entered on the line following "Total Accounted For."

20 August 1963

MEMORANDUM FOR: Deputy Chief, Audit Staff

SUBJECT: MKULTRA, Subproject 94 with [REDACTED] B

1. In response to your inquiry regarding the relationship under Project MKULTRA which existed between TSD and [REDACTED] we are submitting to you the following information from the draft Memorandum for the Record dated 22 November 1961 which provided a grant in aid of research in the amount of \$55,222.90 to [REDACTED] B

2. The same principles were adhered to in establishing Subproject 94 as any of the other MKULTRA Subprojects. A memorandum for the record was written in this case requesting continuation of Subproject 94. The memorandum stipulates that [REDACTED] will sanction as cutout and cover for the Subproject. The memorandum also provides for a terminal summary accounting and the handling of accountings for travel expenses in a manner consistent with the established practices of [REDACTED] B

B [REDACTED] Also, any unused funds remaining at the completion of the project were to be returned to [REDACTED]. The memorandum states H that no permanent equipment was anticipated for this program.

3. A memorandum from [REDACTED] to [REDACTED] dated 14 December 1962 transmitted an accounting for \$54,931.45 and the refund of unused funds in the amount of \$291.45. The accounting for funds and the work performed was in accordance with the memorandum for the record and the general agreement relative to this work. The overall performance by [REDACTED] B, in regard to Subproject 94 was highly satisfactory in all respects. A copy of the budget proposal, the memorandum for the record and the accountings are on file in TSD and may be viewed by proper officials. H

94-8

14 December 1962

Gentlemen:

Approximately one year ago [redacted] received a grant-in-aid from [redacted] for \$55,222.90 to support our work on new approaches to pharmacological assay techniques. It was understood this support would relate to project expenses incurred on and after 1 December 1961 and that a financial report would be rendered to [redacted] at the end of the grant year. Please find this report enclosed.

Since [redacted] has found it necessary to terminate all activity on this project as of 30 November 1962 and since this coincides with the completion of a grant year, we find that in accordance with our agreement, the unexpended balance of funds in the amount of \$291.45 is due and returnable to [redacted]. Our check for this amount is enclosed.

Your support in this important area of research has been greatly appreciated. May we express the hope that possibly sometime in the future some other area of research may be determined to be of mutual interest.

Yours very truly,

[redacted]
Secretary

ADDITIONAL COMMENTS

94-14

22 November 1961

MEMORANDUM FOR: THE RECORD

SUBJECT : Project MKULTRA, Subproject No. 94

1. The purpose of this subproject is to provide a continuation of activities in selected species of animals. Miniaturized stimulating electrode implants in specific brain center areas will be utilized.

2. Initial biological work on techniques and brain locations essential to providing conditioning and control of animals has been completed. The feasibility of remote control of activities in several species of animals has been demonstrated. The present investigations are directed toward improvement of techniques and will provide a precise mapping of the useful brain centers in selected species. The ultimate objective of this research is to provide an understanding of the mechanisms involved in the directional control of animals and to provide practical systems suitable for application.

*man-of-record
a. earlier proposal, dated
18 Oct '60 and significantly
different from this but in
also in this file*

3. [REDACTED] will function

as cutout and cover for this subproject. The research and development will be conducted in facilities provided by [REDACTED]

[REDACTED] who will submit to [REDACTED]

[REDACTED] a summary accounting of funds at the conclusion of the program.

Any unused funds remaining at that time will be returned to [REDACTED]

B

4. The cost of the program for a period of one year beginning 1 December 1961 is estimated to be \$55,222.90. To this sum must be added \$2,208.92 which represents the 4% service charge due [REDACTED]. The total cost of the project for a period of one year will, therefore, not exceed \$57,431.82. Charges should be made against allotment number 2125-1390-3902.

5. It is not anticipated that any permanent equipment will be needed for this program. Documentation and accounting for travel expenses which are reimbursable by [REDACTED] will conform to the accepted practices of that organization.

6. The requirement for a semi-annual informal accounting on the part of the principal investigator is waived.

[REDACTED]

[REDACTED]

94-14

7. All personnel connected with the planning and monitoring of this program possess TOP SECRET approval. The project will be unclassified after it leaves [REDACTED]

PROPOSAL

It is proposed to conduct investigations as directed by the sponsor of the action of localized neurological and physiological stimulants on the balance mechanisms in mammals and bird. The sponsor will have full control of species of animals to be utilized together with methods and procedures to be followed in the researches.

Special investigations and evaluations will be conducted toward the application of selected elements of these techniques to man.

Pilot experiments will be performed under field conditions to permit the critical evaluation of methods and procedures. The parameters of effectiveness and the action of potential interfering phenomena will be determined.

The following budget is required to carry out the program outlined above for one year.

94-15

November 15, 1960

MEMORANDUM FOR: THE RECORD

SUBJECT : Supplement to Project MKULTRA, Sub-
project 94

1. The purpose of this supplement is to provide additional funds whereby investigations on the remote directional control of activities of selected species of animals may be continued and extended.

A system of localized stimulation of the brain is being utilized.

2. Initial biological work on techniques and brain locations imparting specific stimulation which permits directional control of rats and burros will be extended to dogs. The feasibility of remote control of activities in two species of mammals has been demonstrated by limited trials. In order to capitalize on this technical break-through further investigations are necessary. The investigations are being directed toward refinement of techniques with the ultimate objective being to provide practical systems suitable for operational application.

3. [REDACTED] actions as cut out and cover for this subproject. The necessary research and development is being conducted by [REDACTED] who will submit to [REDACTED] a summary accounting

B

of funds at the conclusion of the program. Any unused funds remain-
ing at the conclusion of the program will be returned to [REDACTED] B

4. The program will require a minimum of two years for
completion. The additional funds required for the first year are
\$10,000.00. To this sum must be added \$400.00 representing a four
per cent service charge to [REDACTED] B
making the total amount \$10,400.00.

5. Total cost of the project for one year will not exceed
\$55,400.00 of which \$45,000.00 has previously been obligated.
Charges should be made against Allotment No. 0525-1009-4902.

6. It is not anticipated that any permanent equipment will
be needed for this program.

7. Documentation and accounting for travel expenses which
are reimbursable by [REDACTED] will conform to the accepted
practices of this organization. B

8. The requirement for a semi-annual informal accounting on
the part of the principal investigator is waived.

[REDACTED]

9. All personnel connected with the planning and monitoring of this program possess Top Secret approval.

DRAFT [REDACTED] A

7 May 1959

MEMORANDUM FOR: THE RECORD

SUBJECT : Project MKULTRA, Subproject 94

1. The purpose of this subproject is to provide for a continuation of investigations on the remote directional control of activities of selected species of animals including mammals and feathered vertebrates. A system of localized stimulation of the brain which has positive and negative motivational effects will be utilized.

2. The initial research phase has been completed by [REDACTED] B

B [REDACTED] They have worked out techniques and brain locations for imparting specific stimulation which activates and maintains directional control of selected mammals. The feasibility of remote control of activities including speed and direction of movement has been demonstrated by limited laboratory and field trials in two species.

B [REDACTED] operating on funds allotted by Letter Order No. 59-26062 having completed the initial research phase have elected to discontinue work in this area. This decision was made on the premise that they have worked out the principle for this Agency and cannot justify further work in an area foreign to their mission. The implications of this technical breakthrough and its potential value to intelligence operations establishes a need for continuation of these investigations, their extension to other species of animals and refinements in instrumentation and stimulation techniques. The ultimate aim

[REDACTED]

A

of this investigation is to complete work which will permit the practical application of the system to [redacted] problems.

3. [redacted] will function as cut-out and cover for this Subproject. The personnel and consultants involved consist of CD/Branch II personnel working with Dr.'s [redacted]

and [redacted]. The necessary research and development will be conducted

by [redacted] who will submit to [redacted]

[redacted] a summary accounting of funds received from [redacted]

and will return any unused funds remaining at the conclusion of the program.

4. The program will require approximately two years for completion.

5. This project will be funded for the first year at an estimated cost of \$43,200. To this sum must be added \$1,800. representing a 4% service charge to [redacted] making the total amount \$45,000. This amount of money represents about a 70% cut over that expended in the previous year.

6. Total cost of the project for one year will not exceed \$45,000. Charges should be made against Allotment 9-2502-75-902.

7. It is not anticipated that any permanent equipment will be required for this program.

8. Documentation and accounting for travel expenses which are reimbursable by [redacted] will conform to the accepted practice of that organization.

[redacted]

9. The requirement for a semi-annual informal accounting on the part of the principle investigator is waived.

10. All personnel connected with the planning and monitoring of results of this program possess TOP SECRET approval, one of the personnel of [redacted] will possess TOP SECRET approval and be witting of Government interest or true purpose of the program.
