

~~TOP SECRET~~

SECURITY INFORMATION to 1828-CAGWU (s.c.)

BGIEND Meeting - LCDRINK - 23-25 JULY 1952

*Hash.*

23 July 1952

I. 1952 Operations

A. Summary of 1952 Operations to Date

- (1) The Identity (1) Defection Case was discussed only briefly, since all phases of this activity, which was unsuccessful, have been covered previously in reports.
- (2) Apple Tree Team. This is the RNCASTING team, known to the DTETHYLS as a DYCLEMATIS Mission. This team, considered far superior to any other yet infiltrated, went into the country on May 1. Three members, (AIRMETER, RNPULOG, and AIRWISE) came out on June 15 after completing their part of the mission, which was to make high level contacts. W/T contact has been maintained with the three team members still in KMWAAHOO, and it is hoped to resupply them with a larger radio set in August. It is known that the team has established contact with at least 12 sympathizers, including one Army officer.
- (3) Willow Team. This three-man team went into the country on June 14 and came out on July 9, after establishing a chain of dead letter drops for intelligence to be picked up in future infiltrations. They brought out some valuable information, newspapers, currency, postage stamps, and stationery, as well as definite confirmation that the HTGRUBBY is being heard. In this connection, the team reported that there is a demand and need for small radio sets.

(When the Willow Team exfiltrated they brought out a KMWAAHOO peasant who had been of assistance to the team and was forced to flee for his life. Because of the man's lack of information, interrogation proved practically fruitless. He is now at QKDIMPLE.)

- (4) Pine Tree Team. This team was infiltrated on May 18, 1951, exfiltrated to TPROACH in October, and came back to LCFLAKE on June 26, 1952. While not considered particularly successful, the team did bring out some valuable information about KMSTRIDE, TPROACH activities, names of friends and enemies within KMWAAHOO, etc. They reported that KMSTRIDE has attempted to make contact with HTNEIGH but has been blocked by the TPROACH Government. They also reported that members of Red One Team, now in TPROACH, are not to be trusted. They confirmed the fact that HTGRUBBY is being heard.

(When this team exfiltrated to LCFLAKE the team leader did not divulge all the intelligence he had gathered until pressure was applied. It is thought that this man was working primarily for C ) and that his allegiance to HTNEIGH was secondary.

SECURITY INFORMATION

- 2 -

B. Operations Planned for the Remainder of the Year.

(Planned operations are held up pending operational clearance from ZRMETAL).

- (1) Willow Team. Beginning about August 15, this team will re-infiltrate every six or eight weeks to pick up intelligence material gathered for them by sympathizers within the country and deposited in the letter drops established during their first mission.
- (2) Cedar Team. This team, which left its base on July 21, is waiting at the frontier to be infiltrated. They will go to the Identity (2) area to attempt to carry out a mission similar to that of Willow: Establishing a system of letter drops which they can service from time to time, locating a safe area for the establishment of a permanent W/T base, recruiting guides for future teams, reporting on the reaction to parcel and leaflet drops.
- (3) Lightning Team. When clearance has been granted by ZRMETAL, this team will infiltrate as a coup de main mission, specifically, to liquidate a KMWAAHOO who was responsible for the killing of some resistance fighters in 1951. This was given considerable publicity by the LYCEUM radio.
- (4) Fig Tree Team. This team has been formed by one of the members of the Apple Tree Team who came out on June 15. He volunteered to re-infiltrate and establish a permanent radio base north of Identity (3). He will also investigate the possibility of defection of high level Army and political people.
- (5) Second RNCASTING Mission. We are ready to service such a team if and when RNCASTING supplies the man. Their mission will be to organize resistance forces within the country and report on the possibilities of large scale defection in Army and political circles. RNPOTLOG is being held to go with this group, since he is considered too valuable for the Lightning assignment. The activity will be known to the ZRCROWNS as another "DYCLEMATIS Mission". A W/T operator will be supplied from LCDRINK.

II. Personnel

A. ZRELOPE/Boulder Program Candidates

Until the question of reorganizing and broadening HTNEIGH has been settled it will be difficult to recommend high calibre men for this training because of the fact that political party leaders in HTNEIGH want to protect their strength by keeping loyal followers within reach. This applies to Identities 4 and 5 in TPCREDO, who have been mentioned as possible candidates.

Identity (6), now in

~~SECRET~~

82923.4

COPY 1 OF 3 COPIES

TOP SECRET  
SECURITY INFORMATION  
- 3 -

Identity (6), now in QKWAFER and recommended by [ ] for ZRELOPE training, will be withdrawn as a candidate so that he will be available to [ ] for work on HTGRUBBY.

A list of seven possible candidates has been submitted by JBPARTSON. ZRELOPE officials are not inclined to accept Identity (7) personnel, but it is felt that they would do so if the men were kept in other surroundings for a time before reporting for training.

ZRELOPE will not accept personnel residing in HTCURIO because of immigration regulations. There are also other restrictions which make it difficult to select suitable candidates, such as the necessity for proficiency in either the German or French language. However, it is not believed that there is an age limit. While the program is exclusively political indoctrination, it is not felt that ZRELOPE officials would object to accepting candidates who have military backgrounds, even if it was planned to use those men in a military capacity later.

Biographical data was submitted on a man, now in the Middle East, at the time (6) (mentioned above) was recommended. This man could be sent to ZRELOPE at any time. (Records on this candidate were left in TPCREDO, and [ ] could not recall his name.)

Radnor mentioned an intelligent KMWAHOO by the name of (8), a brother of [ ], who is employed by HTGRUBBY, as a possible candidate. [ ] suggested a man by the name of (9) in LCDRINK who might be considered unless his age, 56, would eliminate him.

This matter was left on the following basis: LCDRINK will screen and submit the name of one candidate; [ ] will screen and submit the names of two candidates.

**B. Transfer of [ ] to BGTOWN; Replacement of [ ] in LCDRINK**

It was agreed that [ ] will be transferred to BGTOWN as soon as a suitable replacement can be located to take over his assignment in LCDRINK.

It is proposed that the HTNEIGH work now being performed by [ ] by delegated to a committee and [ ]'s replacement be concerned exclusively with the editorial operation of HTGRUBBY.

The TPCREDO station is to continue its efforts to find a suitable replacement for Uridge and advise LCDRINK as soon as possible.

**C. Kaempfer's Trip**

For some time Kaempfer has tried to arrange a trip to TPCREDO, presumably for the purpose of discussing with other political leaders the proposed re-organization and broadening of HTNEIGH. Since it is known that LCFLAKE officials are displeased with Kaempfer's behavior (he has written letters slandering the LCFLAKES and favoring collaboration with the TPROACHES

TOP SECRET

as a means

8.2923.4

1 3

TOP SECRET

SECURITY INFORMATION  
- 4 -

as a means of liberating KMWAAHOO), it is felt that it will be best for all concerned to get him out of LCFLAKE permanently.

(In view of postponement by headquarters on broadening discussions, it was decided after this meeting was adjourned to give Kaempfer permission to leave LCFLAKE at any time.)

D. Assignment of ( ) to Temporary Duty in TPCREDO

It was agreed that ( ) will proceed to TPCREDO when he can be spared for several weeks of temporary duty. ( ) is being sent for the purpose of shadowing members of HTNEIGH who collaborate with BGFIEND representatives but who are not completely trusted in the conduct of their activities. It is felt that a spot check on their conduct from time to time will be valuable in assisting TPCREDO BGFIEND personnel in keeping them in line.

( ) is being assigned to TPCREDO on TDY because the DYCLEMATIS station there is unable to supply an operative.

E. Arrival of Malament and Whiffen in HTEXOTIC; ( ) Conducting of Malament and Whiffen )

( ) will proceed to HTEXOTIC on or about August 3, where he will accompany Malament and Whiffen on the conducted tour of JBPARSON, if ( )'s work load in TPCREDO is such that he can be absent from that station for a few days.

F. ( ) Meeting with Identity (10) in HTEXOTIC

Recently it was reported that SGGRIND political adviser (10), stationed in HTEXOTIC, was probably responsible for many of the blunders SGGRIND has made in airing programs taped by KMWAAHOOS outside HTNEIGH. It was suggested by RNBALDER (SGGRIND representative in TPCREDO) that it would be well for ( ) to discuss these matters directly with (10). ( ) reported that it was not his belief that (10), or (11) in BGTOWN, were entirely responsible, but it was agreed that no harm would be done by ( )'s discussing the situation with (10), if and when he is in HTEXOTIC early in August.

III. Propaganda

A. HTGRUBBY

It has been definitely established from reports by Pine and Willow Teams that the radio is audible in KMWAAHOO, but it is impossible to measure its effectiveness because the people now coming out of the country are peasants who have had no radios.

The principle difficulties in operating the HTGRUBBY are (1) the lack of recent, authentic information from within the country (one reason for the lack of intelligence is the fact that the flow of refugees into LCFLAKE is

TOP SECRET

now at the

82923-14

COPY / OF 3 COPIES

TOP SECRET  
SECURITY INFORMATION

now at the rate of only about 25% what it was last year) and (2) the problem of obtaining the high level personnel to write the editorial material. Another problem is that of maintaining the enthusiasm of the personnel over a long period of time. It was suggested that the latter might be solved by rotating QKPALING and HTGRUBBY writers if the necessary visa arrangements could be made in KMULCER and LCFLAKE.

The technical operation of the radio is smoother than it has ever been. An antenna has been improved; a transmitter has been improved; and the season is favorable for broadcasting.

QKPALING now carries a regular column on HTGRUBBY.

B. Leaflets

The symbol, with instructions for its use, has been delivered.

The radio leaflet has been produced and will probably be dropped on 26 July.

The reserve stock of drop material consists only of symbol stickers, some odds and ends left over from previous drops, and miniature editions of QKPALING.

At the request of the ZRCROWNS, two leaflets have been written in TPCREDO. The first, dealing with the seven years of broken promises of the Murat regime, has been sent to BGBIDDY. The second, which compares the Identity (12) "Bill of Rights" with a recent LYCEUM decree against saboteurs, will be sent to BGBIDDY and LCDRINK as soon as the KMWAAHOO translation has been completed.

It was agreed that the broadening of HTNEIGH, if it is accomplished, would be excellent material for a leaflet. Also, a special leaflet can be prepared in LCDRINK as soon as the coup de main mission has been accomplished by the Lightning Team.

( ) will discuss with ( ) in BGBIDDY the importance of making leaflets uniform - using the symbol as an overprint on all leaflets, etc.

It was agreed that this is not a propitious time to institute the passive, or negative, resistance campaign because there is no organization within KMWAAHOO to give it impetus. It was agreed that the dropping of symbol stencils and chalk should also be postponed for the same reason.

C. QKPALING and KMBUMPSY

These two activities are handicapped by the same problem which faces the HTGRUBBY - shortage of news. It was suggested that headquarters authority advise the field about the possibility of getting permission to use classified material as a basis for propaganda articles. If granted, ( ) and ( ) would be responsible for preparing news material which

could be passed

SECRET 82923.7 COPY 1 OF 3 COPIES

**TOP SECRET**  
**SECURITY INFORMATION**

- 6 -

could be passed along to the propaganda arms for inclusion in their broadcast and printed material.

Another difficulty is that of trying to keep the two publications from becoming stereotyped. The KMWAHOO editorial writers are prone to write the same type of articles in one issue after the other.

KMBUMPSY, publication of which was discontinued for about forty-five days because the KMULCERS are tightening up on the printing of clandestine material, has now been granted a license by the KMULCER authorities and has resumed publication.

**D. SGGRIND broadcasts**

RNBALDER, TPCREDO representative for SGGRIND, has agreed to allow HTNEIGH to make a weekly 15-minute broadcast. (This, of course, will have to be approved by SGGRIND headquarters in BGTOWN).

( ), a member of the Executive Committee who enjoys speaking on the radio, has been chosen as the regular commentator. Recordings will be made in TPCREDO each week and sent to HTEXOTIC for broadcast.

**E. BGFIEND-VALUABLE Relations in TPCREDO**

The relationship between RNLUMPIT, the DTETHYL representative, and ( ) are very satisfactory to ( ) insofar as propaganda is concerned. The two representatives alternate the chairmanship of the Propaganda Committee, RNLUMPIT acting as Chairman one month, ( ) the next.

RNLUMPIT has never written any leaflet material or articles for the newspaper or bulletin, but this works to ( )'s advantage, since it allows him to control the material. RNLUMPIT is an excellent rewrite man and does much of the final editing of news articles.

Insofar as the political relationship between BGFIEND and VALUABLE in TPCREDO is concerned, the situation is the same as it has always been.

( ) outlined the QKFERVOR chain of command in TPCREDO, which will be covered in a dispatch.

**IV. HTNEIGH - TPCREDO**

July 24, 1952

**A. Reorganization and Broadening of HTNEIGH**

- (1) In order that all those in attendance might be fully conversant with HTNEIGH political situation, its background and aims were reviewed. The following points were brought out in this review.

(a) HTNEIGH was created

(S) SECRET

82923-A

1/3

~~TOP SECRET~~  
SECURITY INFORMATION

- (a) HTNEIGH was created for the purpose of establishing an instrument through which the DTETHYLS and ourselves could work to accomplish KMWAAHOO's liberation.
- (b) Through no fault of VALUABLE/BGFIEND or the HTNEIGH, the timetable originally visualized to accomplish KMWAAHOO's liberation has projected itself over a longer period than that visualized by HTNEIGH participants.
- (c) The prolongation of the relatively short program visualized by HTNEIGH participants has led to individual and party political activities aimed toward increasing the political strength of individuals and parties, which has led to disunity within the HTNEIGH and increased activity on the part of groups outside HTNEIGH which do not share in the backing being received from the PBPRIMES.
- (d) A majority of the elements within HTNEIGH appear to favor the cessation of political recruiting and the entry of worthy elements outside HTNEIGH to strengthen its ranks and bring unity among as many exile factions as possible. The XNMALEDICTS, believed to be strongly supported by the DTETHYLS, do not, however, favor such a program.
- (e) It appears that from the very outset HTNEIGH (insofar as the political body is concerned) has been largely controlled by the XNMALEDICT, which actually represents a minority within the HTNEIGH organization.
- (f) It appears that the XNMALEDICTS and the DTETHYLS have strayed a considerable distance from the original aims of HTNEIGH and VALUABLE/BGFIEND. The XNMALEDICTS appear to be devoting the major share of their effort toward establishing themselves as the post-Murat government of KMWAAHOO. The ZRCROWNS appear to be actively engaged in supporting this effort, for these reasons:
1. They see the danger of increased PBPRIME prestige, if HTNEIGH is broadened to include elements not now participating in the HTNEIGH effort and a resulting decrease in ZRCROWN prestige.
  2. It is believed that the ZRCROWNS view the problem politically as a contest between Keevil on the one hand and bipartisan interests led by RNCASTING on the other.
  2. It is believed that the DTETHYLS have attempted to merge their XNMALEDICT sympathizers with [ ] and that they have been rebuffed. All evidence now indicates that the ZRCROWNS, aided by the XNMALEDICTS, are attempting to sway certain RNCASTING followers and would-be RNCASTING followers not to join in any coalition led by RNCASTING. It thus appears that the ZRCROWN failure with [ ] and their current effort to win friends and would-be friends of RNCASTING) has made it all-important that

~~TOP SECRET~~

HTNEIGH remain in  
COPY 1 OF 3 COPIES

82923. A

TOP SECRET

SECURITY INFORMATION

HTNEIGH remain in its present state, at least for the time being or until the ZRCROWNS can construct safeguards to keep HTNEIGH from becoming pro-PBPRIME and possibly pro-RNCASTING.

- (g) From the PBPRIME point of view it appears that the center-of-road policy being followed results only in financing the ZRCROWN and XNMALEDICT program.
  - (h) As of this date, it appears the XNMALEDICT (professor group) would withdraw from HTNEIGH, if forced to accept a broadening which would result in an improvement of the PBPRIME position and a weakening of the ZRCROWN-XNMALEDICT status.
- (2) If the foregoing is true and the ZRCROWNS and XNMALEDICTS look beyond the day of KMWAHOO's liberation, PBPRIME, in order to protect its own position, would appear to be faced with the necessity of:
- (a) Defining its wants;
  - (b) Mapping a program to attain these ends; and
  - (c) Determining what price the PBPRIMES will have to pay (not only financially but in lost friendships) to attain these ends.
- (3) The answer to the first part of the problem is a KMWAHOO government with pro-PBPRIME sympathies.
- (4) Based upon all the facts available for consideration, it appears that the PBPRIMES can best attain this end by pursuing one of two courses:
- (a) Broaden HTNEIGH to create a greater pro-PBPRIME majority, with stringent by-laws in which all elements within HTNEIGH would agree to abide by decisions determined by the practice of democratic principles; or
  - (b) Work independently in a clandestine fashion, not only with RNCASTING but with Keevil as well, to place PBPRIME in a more favorable position with these interests than that enjoyed by the ZRCROWNS.
- (5) It is the feeling of the field personnel dealing with HTNEIGH problems from day to day that a combination of both courses should be followed. The only matter to be decided, in the opinion of the field group, is the extent to which each course should be followed, which, it is felt, can only be determined by the price the PBPRIMES are willing to pay - a possible walkout by the XNMALEDICTS or elements within XNMALEDICT and the creation of friction with our ZRCROWN partners at the HTNEIGH political level.
- (6) The field group

TOP SECRET

1 OF 3 PAGES  
82923-A

TOP SECRET

SECURITY INFORMATION

(6) The field group views the situation as follows:

- (a) The total strength of the XNMALEDICT group in exile is believed to number no more than 200 active refugees available for HTNEIGH duty. Of this number, less than half are now in JBPARSON. The other half is scattered throughout Europe and the Middle East. (These figures were borne out recently when a survey of KMWAAHOO personnel available for HTNEIGH assignments was made by ( ) in the hope that another Identity (7) could be created. ( ) was able to raise approximately 100 candidates; the HIMELLONS furnished more than a sufficient number to man an entire Identity (7); the XNMALEDICTS could only come up with 36 names.) Of these 200 men it is believed that no more than 75 would withdraw from HTNEIGH and the number would probably be considerably less in the event Malament decided to remain within HTNEIGH and break with the professor group. Indications are that this is quite possible.
- (b) Assuming that the XNMALEDICT left HTNEIGH, the field group does not see any place they could go. They are on most unfriendly terms with the LCFLAKES, and BGFIEND/TPCREDO has been informed by KMULCER officials that they are only tolerated in KMULCER because they live under the protection of HTNEIGH, and it does not seem likely that Keevil would welcome them without PBPRIME or ZRCROWN backing. According to reports, as already stated, Keevil is said to have rebuffed ZRCROWN approaches. It is also believed that the ZRCROWNS would not back the XNMALEDICTS to the degree that it would represent a force to be reckoned with. To begin with, conversations ( ) has had with the ZRCROWNS indicate that they are well aware of the XNMALEDICTS true strength and, in the second place, it seems unlikely that the ZRCROWNS would have the funds available to compete with the many and varied activities now conducted by HTNEIGH, in which practically the entire cost is borne by the PBPRIMES.
- (c) Thus, it appears that, while the ZRCROWNS would bring all possible pressure to bear on the PBPRIMES, they would probably remain in the VALUABLE/BGFIEND set-up even though the XNMALEDICTS withdrew.

(7) It is therefore the conclusion of the field that reorganization and broadening of HTNEIGH should be pushed to a final conclusion without any let-up in the activity until the desired ends are accomplished. To be sure, certain concessions will have to be made and certain waiting periods will have to be sweated out in the process, but it is recommended that under no circumstances should the pressure be lifted at any time. Since higher headquarters has decreed that no activity should be conducted in this respect at this time which might cause a break-up of HTNEIGH, Gallogly has been instructed to follow the course outlined below:

- (a) He is to return to TPCREDO immediately and undertake the reorganization of HTNEIGH along the lines agreed to by the PBPRIMES and the ZRCROWNS at the March meeting in BGBIDDY.

82923-A

(b) Meanwhile, HTNEIGH

CONFIDENTIAL

TOP SECRET

SECURITY INFORMATION

- (b) Meanwhile headquarters has been asked to grant ( ) permission to undertake the broadening previously agreed upon, with the understanding that such a broadening might well result in a temporary chaotic situation but which all evidence, as stated above, leads the field to believe will result in a broader, stronger, more pro-PBPRIME HTNEIGH.
- (c) ( ) has been instructed to size up the broadening prospects and estimate the actual possible eventualities, based upon his experience resulting from the reorganization discussions, and to furnish this estimate to headquarters.
- (d) Upon receipt of this information, if headquarters is reluctant to proceed with the broadening, it has been requested that ( ) be called to ZMETAL to present personally facts, figures, and other evidence in hand.

B. Activities of BGPREFIX

According to information available, three of the eight teams sent into KMWAAHOO by the TPROACHES during the month of June were led by BGPREFIX elements. Beyond this little is known about the political relationship between BGPREFIX and the TPROACHES except that DYCLEMATIS reported earlier this month that a TPROACH envoy visited TPCREDO, where he met BGPREFIX leaders and reportedly sought to promote a solid relationship.

Insofar as BGPREFIX views toward HTNEIGH are concerned, interests friendly with that group believe the BGPREFIX would welcome entry into HTNEIGH, if invited to participate.

C. Activities of HTNEIGH Political Parties and Personalities

This overall situation is summarized in the reorganization and broadening discussions. However, several points of interest follow:

- (1) The ZRCROWNS are attempting to drive a wedge between RNCASTING, and ( ), and it appears there will be a good chance that RNLUMPIT's effort in this will backfire. RNLUMPIT has spread the rumor in HTNEIGH circles that RNCASTING is not fond of ( ) and is using him only because of his strength in the Identity (13) and will probably drop him should he be fortunate enough to return as the head of a KMWAAHOO Government.
- (2) There are continued rumors that all is not well within XNMALEDICT and that some of the elements resent the ( ) dictatorship. This has not resulted in open rebellion, and every effort is being made by the professor group to discipline some of the ring leaders involved in the dissension.

(3) Political party

82923-14

TOP SECRET  
SECURITY INFORMATION

(3) Political party recruiting is being conducted at an ever-increasing tempo. This resulted in a riot at QKDIMPLE and will probably manifest itself in other forms unless such recruiting practices are stopped. It is unlikely that such practices will be stopped, however, until HTNEIGH is broadened to the degree that more than two major political parties share in the backing provided by the PBPRIMES.

D. HTNEIGH and Current BGFIEND Operations

No information whatsoever has been given to HTNEIGH leaders concerning BGFIEND 1952 operations. However, rumors are now reaching the TPCREDO BGFIEND staff to the effect that the PBPRIMES are working directly with RNCASTING.

V. ZRCROWN Activities

A. In KMULCER

The DTETHYLS have made no change in policy in KMULCER except that RNLUMPIT is probably even more active on the political front than his predecessor, Warren K. Straus. RNLUMPIT and ( ) still maintain very fine relations in spite of the fact that RNLUMPIT is active in trying to sabotage the PBPRIME effort to reorganize and broaden HTNEIGH.

B. In LCFLAKE

The VALUABLE activity in LCFLAKE is still conducted as a one man operation, and BGFIEND maintains most excellent relations with RNPOSTAL, the VALUABLE representative.

C. In TPROACH

The only information available regarding the DTETHYLS activities in TPROACH is the reported presence of Identity (14) in Identity (15), where he is reportedly in contact with KMWAAHOO refugees, the DYCLEMATIS report on the meeting between Identity (16) and Keevil, and a report that the ZRCROWNS have recently established a consulate in Identity (17).

VI. BGFIEND/DYCLEMATIS Relationship in TPCREDO

The relationship between BGFIEND and DYCLEMATIS in TPCREDO is still not entirely satisfactory. An element of confusion exists about the handling of material gathered by the BGFIEND TPCREDO staff for operational and propaganda needs.

Certainly, some of this material is of a straight intelligence nature, and the BGFIEND field staff has no objection to turning over such material to the DYCLEMATIS shop for processing. On the other hand, the majority of the material

is used primarily

TOP SECRET

COPY 1 OF 3 COPIES

82923-77

TOP SECRET  
SECURITY INFORMATION  
- 12 -

is used primarily for operational and propaganda activities, and in such instances BGFIEND feels it has the right to communicate directly without processing such material through DYCLEMATIS.

Identity (18), DYCLEMATIS Chief in TPCREDO, has suggested to ( ) that a DYCLEMATIS man be placed in the BGFIEND shop with the idea of taking over the BGHIVES operation. While this might have some benefits, it is not without complications. To build a sizable staff in TPCREDO for a small editorial content paper like Identity (19) would probably result in complete destruction of Identity (19)'s cover value. ( ) has been instructed to inform Identity (18) that such a decision should be made by ZRMETAL, in any event, and not in the field.

VII. BGFIEND Activities in BGBIDDY

July 25, 1952

After the BGBIDDY meeting in March the relationship between BGFIEND and VALUABLE in BGBIDDY improved to a great extent. ( ) feels this is due to the fact that ( ) was reprimanded by his superiors and told he must advise them in advance of any commitment or policy statement. In order to make sure that ( ) does not get out of line, an arrangement has been made by his superiors whereby they are kept advised of all activities conducted by the BGBIDDY station with [ ] on VALUABLE-BGFIEND. Under this arrangement, ( ) is given copies of any information prepared by ( ) for ( )'s office where the substance of such material deals with policy matters, commitments, etc.

[ ] seems to be no less concerned with VALUABLE activities than formerly. It is true that he is delegating considerably more responsibility to his subordinates, but his interest in VALUABLE has not lessened. ( ) feels ( ) may be acting as a consultant on other ZRCROWN activities, but there is no indication that he is leaving the VALUABLE-BGFIEND picture.

( ) recently completed a study of the KMWAHOO question and wrote a paper on the subject for WSFISHY. He was somewhat elated when this report came back from WSFISHY with a note signed by Identity (20) stating: "What about spontaneous combustion?"

It is believed that the ZRCROWN policy toward BGCOPSE countries has undergone a slight revision, and many of the projects which were pigeon holed are now being brought out and dusted off. This seems to be due to the fact that FJSTEAL weakened on the Identity (21) and JBHOMER treaties, where considerably less strength was shown than that anticipated by the ZRCROWNS.

VIII. BGFIEND Activities in JBHOMER

A. Present Status of JBPARSON

The morale of the personnel of the JBPARSON has improved tremendously since the removal of ( ). Many corrective measures have been taken by his temporary replacement, and more changes will undoubtedly be made when the permanent Commandant, Christopher P. Jann, reports for duty, presumably early in August.

The present strength

82923-A

1 3 COPIES

The present strength of JBPARTSON is a little over 200, which is the legal water mark. It is planned to cut down the number of personnel as soon as possible.

After the new Commandant has become established in his duties, it is planned to take the Identity (22) to JBPARTSON in order to clarify their relationship with the company.

There has been some discussion from time to time about the establishment of Identity (7)'s in Identity (23). The feasibility of such a move is not known, however, since this would probably be a JBALERT activity and close liaison has not been maintained with them on the subject by field personnel.

B. Formation of a Second Identity (7)

On the basis of unsuccessful attempts made by other organizations to set up second Identity (7)'s, it is not felt that permission would be granted to form a second KMWAAHOO Identity (7).

C. Special Training for JBPARTSON Personnel

Although there is some dissatisfaction in JBPARTSON because the men are not active in operations, ( ) does not believe it is possible to give them military training. ( ) warned that only about 50% of the men in JBPARTSON are physically fit, although political leaders would probably expect to have all the men trained regardless of their fitness.

IX. Plans for Movement of Training to LCFLAKE

A. Island Sites

Three islands suitable for a training area have been located in Identity (24). The islands are available on a lease basis at a low rate of rental. A proposal that the islands be acquired is being submitted to ZRMETAL.

The plan calls for the construction of some semi-permanent buildings and two dummy radar installations. Two boats would probably be needed. The anchorage is sufficient for any size vessel and could be used as a base for a boat to be used in sea infiltrations. There would also be a radio base. Training instructors would live on the main island, with quarters for trainees on the two smaller islands. Because of the radar installations, the LCFLAKE authorities would restrict the entire area.

If the plan is approved and construction can be gotten under way immediately, it is felt that the installation can be ready for use in March, 1953.

B. Transfer of ( )

( ) will be transferred to LCDRINK on P.C.S. in the near future.

C. Transfer of ( )

82923-A

1 3

TOP SECRET  
SECURITY INFORMATION

- 14 -

C. Transfer of ( )

It is felt that, because of the privileges he enjoys in JBHOMER, Edmonds would not desire a transfer to LCDRINK.

D. W/T Operators in JBHOMER

( ) will look into the situation of three W/T operators in JBHOMER who, it is reported, are not receiving much attention. If they are sent to LCFLAKE, they will live in a safe house with two other W/T operators.

82923-9
