a. Partial year in a few cases.

Note: Includes trade of Burma, Hong Kong, Indochina, Indonesia, Japan, Malaya, Taiwan, Ceylon, India and Pakistan, converted to US dollars at the official exchange rates. Due to lack of data, Korea is included only for 1936 and the Philippines only for 1950-54. Thailand and Afghanistan are not included since only fragmentary trade data exist. Double counting is included in Hong Kong's trade statistics due to the entrepot trade. Indian data, except for prewar, are for fiscal years (April 1 - March 31) rather than calendar years.
