CHRONOLOGICAL NARRATIVE ACCOUNT OF CONTACT

1. Approximately 2300 hours, 17 October 1955, POGAPON called me at my quarters to inform me that in accordance with his promise of the previous week he would call on and myself at the Liaison Unit F-3 operations house in Maguro. He said that due to pressure of work, however, that he should like to have the visit scheduled for 19 October rather than 18 October 1955.
2. I told POGAPON that would no doubt be available on the 19th and explained to POGAPON that I would not be present since I was on a 2 week tour of active military duty. POGAPON said that in that case he should like to postpone the meeting to a later date when I could be there. If there were some urgent matter to be discussed POGAPON said he would continue to maintain contact with me by telephone at night and if a meeting was absolutely necessary I could come to his residence after duty hours. I explained that would probably be very disappointed if he were not able to meet with POGAPON this week, but, POGAPON replied that he felt more assured if I were present to help him out when he ran into language difficulties.
