BODY OF YUGOSLAV FRONTIER GUARD, KILLED BY GREEK PLANE,
ARRIVES IN BELGRADE (Minister Zujovic delivers eulogy)

Today, large crowds of Belgrade inhabitants paid tribute to the dead remains of the soldier Milos Jankovic who on June 13 fell victim as a result of the Greek monarchofascist attack on our territory. Sreten Zujovic, Minister of Federal Government, delivering eulogy stressed that the foundations of the new Yugoslavia are built on the precious blood and lives of conscious people, builders of a new life. One of such people, he said, was Milos Jankovic, who gave his life for his fatherland. Minister Zujovic further pointed out that the provocative attacks against the new Yugoslavia were not only attacks against the new Yugoslavia, i.e. against its security. He said, they were attacks against peace and security in the world. Those who are carrying out these attacks, he said, are enemies of peace of the whole world. The attack on our frontier shows one more thing: It is intentional maintaining of an atmosphere of tension and threatening of peaceful relations, an intentional provocation and cause of clashes. The circumstances, under which the attack was carried out, indisputably prove the guilt and responsibility of the attackers. The attack on our policy reveals before the eyes of the whole world the provocative policy of the present rulers of Greece, not only towards Yugoslavia, but also toward peace in general. This, still further exposes the foreign imperialists who are helping such a provocative policy. This attack clearly shows that the monarchofascists are only a weapon of warmongers. Minister Zujovic pointed to the fact that this attack and Jankovic's death are a warning to us to be still more watchful and to guard our frontiers and our country's freedom even more than heretofore. "The death of our comrade," said Minister Zujovic, "is a warning to our enemies to watch out and not to think that they will easily provoke Yugoslavia, and especially that they will inflict any damage to Yugoslavia. The United Nations must use its authority in preventing the work of the monarchofascist provocateurs and imperialists who help them."

A.M.G. IMPEDES SLOVENE'S CULTURAL DEVELOPMENT

Trieste: Tanjug's correspondent reports that the AMG has prohibited the Slovene National Theater to perform the play "Via Mala". Tanjug's correspondent learns that the prohibition followed because the AMG allegedly received from various parts protest letters in which the occupational authorities are criticized because of their permitting the showing of this play.

Everyone knows that the occupational military authorities systematically impede the cultural development of the Trieste Slovenes and limit the Slovenes' rights in Trieste. In this connection the PRIMORSKI DNEVNIK carries an article in which it underlines that the occupational administration brought a decision on the prohibition of the mentioned play on grounds of Trieste Fascists' protest. TEXT OF ALBANIAN NOTE TO GREAT BRITAIN

Tirana: The Albanian Minister to Belgrade, Mr. Tuk Jakov, according to the Albanian telegraph Agency has delivered to British Ambassador Peake a note of the Government of PR Albania with a request that latter send it to his government.

"Since February 13th, 1945," the Albanian note states, among other things, "the Albanian Central Commission for War Criminals several times turned to the UN War Crimes Commission in London. The Albanian Government demands in the name of the Albanian people that Albanian and foreign criminals, who committed numerous crimes in Albania, be handed over." The note complains that so far nothing has been done in this respect.

Stressing that the Albanian claims concerning the handing over of war criminals is in full harmony with the Allied decisions, the Albanian Government in its note stresses that the majority of Albanian war criminals and collaborationists requested by the Albanian Government, are now living in Italy and Greece and in the American and British occupation zones of Germany.

Dealing with the great and numerous crimes committed by persons of Albanian origin whose extradition is being requested, the Albanian Government stresses that they are now endeavoring to hide under the mask of political refugees and to continue their criminal activity against Albania and against peace and security.

The Government of PR Albania expressed the conviction that the British Government in the interest of peace in the world and with the aim of carrying out the principles of justice in international relations will undertake measures that this justified Albania's claim be properly and quickly satisfied.

The Albanian Minister Plenipotentiary delivered an identical note to the U.S. Charge d'Affaires with request to send it to the US Government.

YUGOSLAV VERSION OF CAPODISTRIA INCIDENT

Trieste: From Capodistria came the report about the incident when the Trieste Bishop Santin visited the town. Santin, a man of fascist mentality and known persecutor of Slovenes is being considered by our progressive masses as an enemy of the people and the people therefore forbade him to come to Istria. In spite of this, Santin - without asking the people's authorities for permission - arrived in Capodistria. When the people saw the hated bishop, they demanded he should return at once. The exasperated people's masses attacked the Bishop who would not pay any attention to people's demands and only the people's guards saved him. The bishop was slightly injured and led away by the commandant of the people's guards to whom Santin thanked for his help. The people's guards did all they could to soothe the enraged people's masses but had to use (the butts of their guns in maintaining order?) Forty people were arrested and many injured.
