

EXTRACT

24 March 1953

Dr. M. Scors - leader of the Byelorussians in the United States - (the Astrouski Group) was elected chairman of the Prometheus Club of America. It was probably through that Club that he invited and secured participation of Polish, Latvian, Estonian and Caucasian representatives in the celebration of Byelorussian independence on March 22nd in NYC. It is interesting to know that at the Celebration the name of Astrouski was not mentioned. There is rumour that Astrouski might be replaced by Dr. Scors.
