Information and Privacy Coordinator
Central Intelligence Agency
Washington, D.C. 20505

Dear Sir or Madam:

(b)(6)

(b)(3)

I would also like to request the administrative tracking or processing files on them, as well as all documents pertaining to what incentives and disincentives exist for tape reviewers and appeals officers to uphold prior decisions, or to keep their uphold/overturn rates of prior decisions within a preset norm. I would also like to request the administrative tracking or processing file (including but not limited to documents, correspondence, memos, notes, and emails) for the investigative file, my previous FOIA request on it, and my appeal.

I also request all administrative documents pertaining to what incentives my polygraphers were offered and/or received for increasing their confession rates, and documentation of any cash or other prizes that may have been awarded as an indirect or direct result of my supposed confession(s) or otherwise in connection with my case. If I cannot access documents pertaining to incentives my particular polygraphers were offered in my case, I would like to request documents pertaining to incentives or disincentives for all Agency polygraphers to increase or decrease their confession rates, deception indicated, inconclusive, pass/fail, or other classifications of polygraph results, in proportion or in particular cases.

I would also like to request any documentation pertaining to Agency or other guidelines or protocols which apply or applied to my polygraphers' conduct. Additionally, I request any documentation pertaining to Agency policies on disclosing reasons for denial, including but not limited to protocol or circumstances under which it is permissible or desirable for the Agency to lie in writing about reasons for denial. I would like to request documentation pertaining to protocol for Agency disclosure of equal opportunity contacts as required for filing complaints under NO FEAR.

I would also like to request any materials quantifying the number of polygraphs conducted by or for the CIA on prospective employees, current employees, and assets, respectively; the number and proportion scored inconclusive, deception indicated, or otherwise; the change in this proportion over time; the number of appeals, change of this

OCT 05 2009

(b)(6)

~~proportion over time, and attrition rate of appeals; and the proportion of non-dropped appeals which are ultimately successful. I would also like to request any and all data and analysis of racial, religious, ethnic, national, regional, gender, sexuality, age, and/or class differences in polygraph results, clearance denials, appeals, and/or appeal results.~~

~~I would also like to request any materials quantifying the Agency's understanding of its polygraph accuracy rates, and how this understanding has changed over time, as well as information qualitatively and quantitatively assessing under what circumstances the Agency denies clearances based on polygraph results alone, rather than on the basis of statements attributed to interviewees. In cases concerning individuals who have died following a polygraph interrogation, by suicide, homicide, or in the field as an employee or asset, I would like to request damage reports and any other relevant records I might access in whole or in part. I would also like to request any records pertaining to foreign intelligence services' prospective or actual and former, current, or planned polygraph counter-measure training programs, including but not limited to Agency findings that these programs do not exist.~~

Please find attached a notarized statement regarding my place of birth and citizenship status in the event this is required for the execution of my new requests, as it was required for my investigative file request. Please do not permit me to incur charges exceeding \$30 for the processing of these FOIA requests without my further knowledge and consent.

Thank you for your time and assistance.

Best regards,

[Redacted Signature]
