Address: [redacted]

(b)(6)

I am requesting this search of available records because of my intensive involvement with the CIA and FBI while working for a month for an engineer, technician at his home in [redacted] around the year 1983.

(b)(6)

At that time he was working for Wase at his home. When I met him and began working for him he told me that he was working for the CIA on a top secret program involving the highest level of national security and that I was a national security risk being there working for him. This began my involvement with the CIA and FBI, who were involved with this top secret program in [redacted] around the year 1983. I was told that the CIA and the FBI would be holding national security meetings at his home twice a week at 7 PM. and because of national security reasons I was ordered not to be there at that time working. The CIA and the FBI ordered an investigation of me the first week being there and I had to fill out some half dozen papers for them which they wanted to know all about me. I was told that my orders to do whatever they wanted me to do would not come directly from the CIA and FBI but through the person I was working for. He would receive orders from the CIA and FBI for me to do and tell me these are the orders from the CIA and FBI for you to do today. I was briefed on national security issues throughout the work. So this is what I was involved in with the CIA and FBI until I was not working for this Wase technician person any more
