ATTN: FOIA Public Liaison

RE: FOIA for [redacted]

(b)(6)

Privacy / FOIA Coordinator:

This is a FOIA filing for myself, [redacted] You already have date and place of birth, given that numerous persons in this agency have followed me. This includes George Tenet. Tenet did this during the Bush Administration when Porter Goss was the director. I was looking for employment, something I didn't believe was the CIA's business. And it isn't. I am a White House surveillant, and this why I am certain you have the details on my date and place of birth.

(b)(6)

Include all information regarding the CIA's activities with surveillance on me covering three presidential administrations: Clinton, Bush Jr., and Obama.

I received an incoming call while dialing the CIA today, just as I was about to press send. This blocked my outgoing call. This was deliberate, and tells me I hit the nail on the head. I'm supposed to dial my voicemail. My mailbox is full, so how did I receive this call to begin with? That voicemail is full owing to government surveillance abuses and the utilization of phones for this purpose, including tampering with my phone and switching my voicemail back and forth.

SEP 09 2010

Include information about holding me hostage, tampering with medical care and preventing employment. You used sophisticated surveillance (including satellite) for unlawful purposes, to abuse a citizen and hold her hostage. Explain what you were doing with surveillance on me when there were criminal probes into the activities of the president, Bill Clinton. Don't leave out the use of the media.

[redacted]
