The following confidential information concerns the Pabala Group members:
Sudeten German politicians General Pabala and his myriad representatives have joined the confederate directed against the members of the Czech Nation of Pabala (see Europe) (information chiefly from the Pabala Group) have caused the German Nation to voice comparable inquiries about Pabala's competence and their associates' activities. Pabala's German Czech representative of the Sudeten German Party in the Committee can be seen of these German inquiries to describe as just. All the more as evidence at my time there is the possibility of their publisher - Pabala - his good connections with the Nazis are undeniable. His wife is a Sudeten German and his brother-in-law advised against the German NSDAP. Through this connection with Czech General ministered connections with the German Abwehr and with Colonel von Oster in the decade of the 30's. Von Oster was later liquidated by Hitler. It is conceivable that at that time Pabala delivered information concerning the Czech army to the German Abwehr.

It is known that Petala commanded the Czech Legion during the war.

Professor Dr. Wieser: Wieser seems to be the ideological leader of the Czech movement. He is an intimate friend of the Czech Quinling No. 1, the ~~British~~ Colonel Emmanuel Moravcsik and even today is still proud to be designated as Colonel Moravcsik's right hand. He ^{Wieser} proposed this same Nazi ideology. In 1940 the Protectorate President Dr. Hacha declared after Wieser's transfer from Puno to Prague; (this gentleman is one of the main witnesses against Wieser in exile) Please attempt to make good in at least some measure, what this regime has done to our plighted people in Moravia. For his conduct Wieser was condemned to life imprisonment in 1945. Nevertheless, he was successful in fleeing.
