

~~SECRET~~OSA-1598-66
4 April 1966MEMORANDUM FOR: Lt. Col. William Seward
OSA Project Officer, CHIGOE

SUBJECT: Proposed Meeting with DCNO for Air

(b)(3) 1. There has been considerable discussion, I understand, between Captain Craven, USN; Mr. Bennett; Captain Wilson, USN; and [redacted] regarding the need for a CHIGOE briefing with Vice Admiral Rivero, DCNO for Air. It was felt that such a briefing would be desirable to permit Admiral Rivero to sign off on a directive to the Chief, BUPERS which would, according to Captain Craven, considerably assist in obtaining BUPERS co-operation in assembling a quality crew for the CHIGOE project.

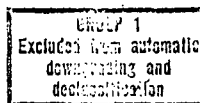

2. Captain Craven tells me that the meeting is now set for 1000 hours, 11 April, presumably in Admiral Rivero's office in the Pentagon. Captain Craven promises to send me full details by interagency pouch, along with a list of Navy types who will be involved. They will presumably be from OP-05 and OP-07. With Captain Craven, of course, representing OP-030R. The plan would be to have [redacted] give the streamlined dog and pony which he gave to Admiral Christiansen in BUWEPS several weeks ago to Admiral Rivero. Suggest you reserve this time on your calendar and as soon as I get the information from Captain Craven about the place and attendees, I will let you know.

(b)(3)

(b)(3)
