4. If you still wish prior notification of visits by DAUME or QRBOUT to your area, please address a request to MOB Attentior . If any KUBARK infor- mation is given to DAUME or QRBOUT in the future, we and would apprece knowing what is revealed. We try to hold information about KUBARK activities to a minimum with employees of proprietary organizations such as PBCHORD/TPLINGO not because we question their loyalty of good judgment, but because their overt anti- communist activities require such a wide range of discussions with individuals and groups of common interest and because they are not normally trained in covert action 5. We appreciate your discretion in not approaching liaison for a name trace				
on a recent contact of DAU	ME as reported in Reference	e B.
