2. Description of Activity:

Project QRDYNAMIC is the principal vehicle through which the Agency conducts its operations against the Ukrainian Soviet Socialist Republic. The main purpose of the project is to exploit contacts with Soviet Ukrainian citizens in order to encourage national and intellectual unrest in the Ukrainian SSR, thus encouraging cultural and intellectual freedom for Soviet citizens. CIA has been in contact with the ZP/UHVR (Foreign Representation of the Ukrainian Supreme Liberation Council) since 1950. Anti-Soviet propaganda activities were begun from New York by a panel of the ZP/UHVR in 1953. QRDYNAMIC sends to the Ukraine newspapers, magazines, pamphlets, books published in the West and has established contact with dissidents in the Ukraine, and especially Ukrainians travelling in foreign countries. The Prolog Research Corporation of New York, N. Y. conducts the research and writing. Contact with project personnel is conducted by the Headquarters case officer in N. Y.

3. Funding:

The funding procedure set up in 1969 continues. It includes two nationals - Becker Regional Studies Associated, Denver, Colorado, and International Survey Service, Los Angeles, California. Funds for the New York Prolog office are passed via Denver and Los Angeles and receipts are furnished Prolog showing fund origin to backstop questioning by New York fiscal authorities. branch of Prolog continues via [ ] bank transfer; however, the account is not in the name of Prolog. To further reduce security hazards, the \$ [ ] contingency fund held in the Prolog Swiss account was liquidated last year. With these changes, it is estimated that only three Munich personnel are now officially witting of U. S. Government involvement.

4. Interagency Coordination and Approval:

Ambassador McGhee in Germany approved on 17 November 1967. The 303 Committee again reviewed on 1 December 1967 and (a) approved continuation of CIA's relationship to Prolog subject to annual review of Prolog value and effectiveness; (b) approved the merger of Prolog's activities with Suchasnist in Munich, and the continued residence of certain Prolog personnel in the United States; (c) took note of the fact that Prolog publications will continue to find a limited market in the United States. ZP/UHVR collaborators who contact Soviet diplomatic and United Nations personnel are either advised to report their contacts to the FBI or the contact is coordinated with the FBI through the project case officer. On 27 December 1968 the 303 Committee again approved. Deputy Assistant Secretary of State Emory C. SWANK endorsed the activity of this project on 6 November 1969; and the 303 Committee reaffirmed its policy endorsement of the project on 23 December 1969. 40 Committee endorsement will be requested sometime in 1971.
