DELOVOY MIR August 1, 1996 [translation for personal use only] Report on parliamentary discussion of the "Concept of Economic and Social Development of the Russian Federation for 1996-2005" by Larisa Piyasheva, doctor of economic sciences: "In Search of Agreement"; second of two parts.

On behalf of the Association of St. Petersburg Industrial Enterprises (16 enterprises and organizations), V. ZANIN asks that prices for energy resources not be allowed to rise and that producers and employees in all types of activity—from industry to the financial sphere— be supported with the strictest quotas on the importation of finished products: "the importation of finished products should be drastically suspended—we need breathing space." "Budget money should not be spent on foreign items which bear foreign words and foreign letters."
